

OFFICE OF THE STATE COMMISSIONER OF COMMON SCHOOLS,
COLUMBUS, OHIO, December 21st, 1892.

*To His Excellency, WILLIAM MCKINLEY, JR.,
Governor of Ohio:*

DEAR SIR: In compliance with the law, I have the honor to submit, through you, to the General Assembly of the State of Ohio, the report of the State Commissioner of Common Schools for the year ending August 31, 1892.

Very respectfully your obedient servant,

OSCAR T. CORSON,
State Commissioner of Common Schools.

Thirty-ninth Annual Report

OF THE STATE COMMISSIONER OF COMMON SCHOOLS.

To the General Assembly of the State of Ohio:

GENTLEMEN: In compliance with the laws of Ohio, the following report is submitted for your consideration:

SCHOOL LEGISLATION.

It is a great pleasure in the beginning of this report to congratulate you, as members of the Seventieth General Assembly, on the most excellent school legislation enacted by your body at its first session. Among the many valuable school laws and amendments passed, the most important, on account of its far-reaching effects upon the sub-district or ungraded schools, is the law providing for the more efficient organization of the common schools in township districts, known as the "Workman Law."

This question of the organization of the common schools arose very early in the history of our state. In 1806, before any law for the regulation of the common schools had been enacted, the trustees of the original surveyed townships were authorized to lay off these townships into proper divisions for the purpose of establishing schools. In 1821, a law authorizing the trustees of any civil township to submit to a vote of the people the question of organizing it into school districts, was passed. A district might be laid off under this law without a township vote provided that twelve or more resident householders of such district petitioned for its formation: The householders in each district were to elect each year a committee of three, a collector who should be treasurer, and a clerk to make the tax bills and keep the accounts.

These district committees had power to build school houses, employ teachers, and to make assessments for expenses. Under the law of 1825, it was made their duty to employ teachers, to manage and superintend the concerns of the schools, and to receive and expend all funds. In 1838, their powers of management and superintendence were considerably increased. Under this act they were authorized to make regulations for the government of the schools, to classify them, and to determine the branches to be taught in them.

It will be noticed in all this legislation that the local directors were given full power to act in relation to every question connected with the management of the schools, not only to elect teachers, but also to levy taxes, adopt courses of study, build school houses, and make all necessary regulations for the management of the schools. For the next fifteen years—from 1838 to 1853—so many laws were enacted and repealed that it is very difficult to tell what was the exact condition of the school legislation of that period. In the first annual report of the state commissioner of common schools, issued in 1854, Hon. H. H. Barney makes the following statement:

“ Since 1838 the legislation of the state had become so confused that a universal demand existed for a digested school code; and the General Assembly, in furnishing such a code, determined to modify some features of the existing system.”

As a result of this determination, the law of 1853 was enacted. While there were several important provisions in this law not found in any of the preceding, attention is called especially to the one creating the township board of education, consisting of a representative from each sub-district, intrusted with the general administration of the schools in the township, the assessment of taxes requisite for the construction and repair of school houses, the selection of their sites, the title, care and preservation of all school properties, and kindred duties not inconsistent with those enjoined upon the local directors in each sub-district. *The passage of this law, creating a township board of education and granting to it so many powers before conferred upon the local directors, is sufficient evidence that the people were not satisfied with the independent sub-district system.* The reasons for this dissatisfaction are plainly shown from the following quotations taken from the report of 1854, referred to above. Commissioner Barney, in speaking of this subject, said:

“ Under the independent district system, there was great inequality in the educational privileges of the children of the several districts of the same townships—in some, they uniformly had very good schools; and, in others, as uniformly poor schools. Then, also, township trustees were not a proper body to be entrusted with the important duty of altering or establishing districts. Only three in number, and elected on account of their qualifications for other services, they often yielded to improper applications either to multiply, or change districts. A remedy was needed for these inconveniences, which the law aims to supply by establishing a representative body composed of one local director from each sub-district who shall have been selected by his fellow directors for the current year; and upon the board of education thus organized, are devolved all duties and functions which are *general* in their nature. Their powers tend to equality and uniformity of educational processes and privileges.”

This idea of great benefit arising from the management of the schools by what might be termed the central board of education, was not a mere theory. In 1847, what is known as the “Akron School Law” was enacted and the schools of that city organized under its provisions. This law was followed by others of a similar character providing for the organization of a system of schools in any city or town when a majority of the electors

voted for such organization at an election held for that purpose. One of the main provisions of these laws was that the schools were to be controlled by one board of education. Although these laws had been in operation only a few years when commissioner Barney issued his first report, the excellent results growing out of such organization had become so well known that he made the following statement:

"It is not a new proposition in Ohio to impart more uniformity and vigor to the schools by the agency of a single board of education. Within a few years remarkable results have been attained by intrusting to such bodies in cities, towns and villages, the management and control of educational matters."

From the history of the passage of that part of the law of 1853, which provides for the election of this township board, it is quite evident that this part was a compromise between those favoring the sub-district as the educational unit and those who believed that the township should be the unit of organization. As a result of these conflicting ideas, there was immediately found to be a conflict of authority between the boards of local directors and the township board of education, as soon as the new law went into effect. That this conflict existed is shown by the following quotation from the report of 1855 by commissioner Barney. In speaking of township school organization, he says:

"Objection to the organization of boards of education seldom proceeds from localities where the whole jurisdiction of the schools is vested in such boards; but is confined to townships where that jurisdiction is divided between boards of education and local directors. The intention of the act is manifest, that wherever the two-fold system is retained, boards of education shall exercise a general provision, leaving to the directors, as far as possible, the local administration of schools. To equalize districts, to select school house sites, to make necessary assessments for school house construction and incidental expenses, to provide a few general rules for the regulation of schools, is the true province of the township board, while the local directors should be encouraged to exercise whatever control of school interests is not expressly given by the provisions of the law to the township boards. Indeed, for the purpose of efficient action, and to avoid collision, it would be well to adopt the general principle that in the absence of explicit regulation of any subject by the central authority, the local directors may be considered as the agents of the board with full power to act within legal limits; at least until their action is controlled by some order of the board. Thus, it may be hoped that confusion and controversy will be avoided, as all experience demonstrates that no interests suffer more from their occurrence than the arrangements of public schools. If these evils cannot be otherwise prevented, instead of restoring the independent district system, the General Assembly is invited to consider the organization of the townships of Indiana, where the trustees, among other duties, are constituted a school board, with authority to erect school houses, suitable in number and locality, and to provide uniform instruction therein, without any intervention whatever of sub-districts and their directories. It is my deliberate opinion that such a change (adding, if deemed expedient, a fair compensation for the school services of the trustees of the township), would be far preferable to an amendment which would resolve the state into a chaos of disconnected districts."

It is evident from this language that even at this early date in the administration of the new law serious difficulties presented themselves growing out of this conflict of authority between the two boards of edu-

cation, and to avoid a repetition of these difficulties, the township system was recommended. Especially was it urged that the old sub-district system should not again be enacted into law. In almost every school report since the passage of the law referred to above, there is found some statement or recommendation indicating that this conflict between the two boards of education was becoming greater each year. In the report of Hon. John A. Norris, State Commissioner of Common Schools, for 1867, an exhaustive discussion of the subject of the "Rural Schools" is found. Among other recommendations found among the conclusions reached by this discussion is the following:

"The abolition of the sub-district system, and the adoption of the township or district system without sub-divisions."

It will be noticed that the change recommended to the Legislature by commissioner Norris is more radical than that provided by the Workman Law in that it is recommended that the sub-district system be entirely abolished, while the Workman Law does not in any way interfere with these districts. The next commissioner after Mr. Norris, the Hon. W. D. Henkle, makes use of the following language in speaking of the township system:

"To our present system of township boards and local directors, there are grave objections. A large proportion of the legal questions arising in the operation of the school law, grows out of the conflict of the local directors with the township board. There is scarcely a day that the state commissioner is not called upon to decide such questions. The sub-districts often array themselves against each other, instead of moving along in harmony and taking pride in the success of all the schools in the township.

It is believed that the present mongrel system should give place to the purely township system, in which all the schools of a township should be under the exclusive control of a board of education, chosen by the electors of the township. In this case, the system would conform to that which has been adopted in most of the towns of the state with such satisfactory results. The experience of other states in which the purely township system has been tried, demonstrates its superiority to the district system."

In 1873, the school law was amended in several important particulars and additional powers were conferred upon the township board of education, while the powers of the local directors were confined to narrower limits than before. Thus, local directors were still empowered to employ or dismiss for sufficient causes the teachers in their sub-districts and to certify the amount due each teacher, but they were limited in fixing salaries to the aggregate amount of money distributed *pro rata* by enumeration, and the share of the local levy for continuing the schools apportioned to sub-districts by township boards. Hon. Thomas W. Harvey, in his report for 1874, makes the following statements regarding the sub-district and township systems:

"The schools in the township districts have not kept pace, in improvement, with those of the towns and cities. They have not retrograded as a class; but except in a few localities, they have failed to make the progress which public expectation has a right to demand. Those best acquainted with these schools*have

little hope of their improving, to any great extent, so long as the sub-district system is continued. Sub-district boundaries ought to be abolished, pupils permitted to attend schools nearest to their homes, and township school affairs conducted in nearly the same manner as in towns and cities."

Recommendations that the township system, in some form, should be adopted have been made by almost every school commissioner for the last thirty years, but enough has been stated to prove beyond a doubt that, in the first place, the sub-district pure and simple was not satisfactory and that the compromise which resulted in the law of 1853, providing for both sub-district and township boards of education has never been satisfactory in its operations; and in the second place, that the amendments to this law have been of such character as to strengthen the power of the township board and to weaken that of the local directors. There is but one conclusion to be drawn from a careful consideration of this matter, and that is that a proper solution of the difficult problems arising from the conflict of authority between these two boards is *the election of one central township board of education as provided for in the "Workman Law."* No doubt objections will arise to this law, and like all legislation it is not perfect, but it is certainly correct in principle, and it is firmly believed by those who have given this matter special study and consideration that a fair and impartial trial of the law will convince even its most bitter opponents that it will prove beneficial to the country schools in many ways. The fact that it creates one responsible board of education and must forever do away with the endless disputes and misunderstandings constantly arising under the old plan, is alone, in my judgment, a sufficient reason why it should go into effect and have a thorough trial.

Nearly every mail brings letters to this office containing questions regarding difficulties arising from this conflict of authority. These questions are very frequently of such a nature as to indicate a very bitter feeling between members of the boards of local directors and the township board—feelings which of necessity must work ruin to the schools under their management. Such a condition of affairs cannot possibly arise when the township board has entire control of the schools. It is believed that the election of the director of each sub-district by the people of that sub-district is a valuable feature of the law and will rid it of many of the objections which have been urged heretofore when bills have been introduced into the legislature for township organization which would entirely obliterate the sub-district system. Under this excellent law, the people can have all the advantages of township organization and still retain their individuality as a district.

SUPERVISION OF SCHOOLS.

The discussion of the subject of school legislation naturally leads up to the question of supervision of schools. Reference has already been made to the "Akron Law," passed in 1847, and the beneficial results growing out of it.

Nearly everyone is well acquainted with the plan of organization and the method of conducting the graded school system of our state; and while there are, no doubt, many defects in this system, yet it is very generally conceded that under it there has been great improvement in these schools. While the village, town and city schools have had this efficient and thorough supervision, in the great majority of instances, very little has been done for the sub-district schools in this respect. There are several reasons for this, a few of which it may be well to mention. In the first place, the friends of supervision who believe thoroughly in its efficacy, have never been able to unite fully upon any measure looking to this end. The teachers and patrons of the sub-district schools have also held so many different views on this subject that no satisfactory measure has ever been reached. Some have been opposed to any kind of supervision, others have favored township supervision, while still others have held the opinion that county supervision is the proper solution of the question. As an instance of this wide difference of sentiment, it is only necessary to state that resolutions have been received at this office within the last six months, from one county condemning the "Workman Law" on account of the fear that it might lead up to some kind of supervision, and from another county condemning it in equally strong terms because it does not provide for such supervision.

It is quite evident in both instances, that the law as it now exists is either entirely unknown, or misunderstood. Section 4017 of the present law, which has been in effect since 1873, provides that "the board of education of each district shall have the management and control of the public schools of the district with full power, subject to the provisions of the next section, to appoint a superintendent and assistant superintendent of the schools, etc." Section 4017 of the "Workman Law" provides for the same thing in exactly the same language. *Thus it will be seen that for nearly twenty years the election of a superintendent for the country or township schools has been legal, and that the "Workman Law" does not in any way change this provision.* This section containing this permissive feature relating to the supervision of country schools, is a very valuable one; and, since it leaves the settlement of this matter entirely with the people of each township, it certainly ought to be satisfactory. It is firmly believed that, under the new law, when this feature becomes fully understood, the great majority of the boards of education, realizing the great advantage of careful inspection and supervision of their schools as well as their additional responsibilities in having the entire management of these schools entrusted to their care, will take advantage of this provision of the law and elect township superintendents. It is not thought necessary in this report to enter upon a lengthy discussion of the benefits of organization and supervision of work. Such benefits are recognized in every department of business, and there is no reason why such organization and supervision should not be a part of the school system, country as well as

city. Neither is it desirable to discuss at length the relative merits and demerits of township and county supervision. I feel that it is my duty, however, to state that, after carefully investigating this matter, I am very positive in my conviction that township supervision is vastly superior to county supervision. That supervision which does not inspect is poor and incomplete at best, and such inspection is impossible in as large a territory as the average county. I am glad to state in this connection that quite a number of townships in the state have already taken advantage of the permissive feature of the law referred to before and have thoroughly organized the schools of their township and placed them under the direction of a superintendent. The opinion expressed above regarding the beneficial results of township supervision has been reached after visiting several of the townships so organized and there seeing the practical results growing out of such organization and supervision. In the past year, I have visited Forgy, Clark Co.; Alpha, Greene Co.; St. Paul, Pickaway Co.; Madison Twp., Franklin Co.; and Marietta Twp., Washington Co. In each of these places there is thorough organization and careful supervision, and the results are of such character as to convince any one of the great benefits of this system. I have no doubt the other townships in the state that are organized in the same manner are also doing just as effective work. The investigation of this subject of organization and supervision has not been confined to the schools of Ohio. Several months since, the following questions were sent to the state school commissioner of each state in the Union. Answers to these questions have been received from a great majority of them, and are now on file in this office. Following the questions will be found a careful summary of the answers and the conclusions to which they lead.

LIST OF QUESTIONS SENT TO SCHOOL COMMISSIONERS.

1. What is the unit of your educational system—the sub-district, the township, or the county?
2. If you have any township or county board of education, of how many members does it consist, and how are they elected?
3. Have you at any time changed this unit—if so, from what to what?
4. Why was the change made, and with what result?
5. Are your country schools organized under the same system as your village, town and city schools are?
6. What tendency do you observe in the organization of your country schools?
7. Are your school officers paid any fees or salaries?
8. Have you township, county, or city supervision?
9. What is the greatest defect in your supervision?
10. How are teachers of country schools employed in your state?

11. Do the boards which employ these teachers have entire control of the schools?

12. What is your opinion of Ohio's new law?

Answers received from twenty-nine different states indicate the following:

(1) In twelve of these states the unit is the township; in twelve the sub-district; in five the county.

(2) Twelve states report township boards of education; six, county boards; eleven, neither township nor county.

(3) In seventeen states there has been no change made in the educational unit; and in six there has been a change from the sub-district to the township. Minnesota reports the change from the township to the sub-district, giving as a reason that it was made in the early history of the state before it was thickly populated. They now realize that it was a great mistake, and want to go back to the township system. North Carolina reports change from township to sub-district on account of the social condition of the people. South Dakota reports having tried all kinds, and, after this experience, the people are decidedly in favor of the township system. New York is making a strong effort to secure the passage of a law providing for the township system. Arkansas reports no change, but several attempts. California changed from the district to the county.

(4) The reasons given for the changes which have been made are to secure uniformity and more systematic management. The results of these changes are reported to be very satisfactory.

(5) Sixteen states report their schools as being organized under the same system as the village, town and city schools, the remainder under different systems.

(6) Nine states reply to the sixth question, each answer indicating a tendency toward more thorough organization and generally toward the township system.

(7) Seven states report school officers as receiving salaries, and one or two report this payment optional. The other states report no such payment with the exception of a small salary to the clerk and treasurer of the board.

(8) In nearly all the states there is supervision of the town and city schools. Eighteen states report county supervision; six, township supervision; and two report county, town and city.

(9) Out of eighteen states having county supervision, twelve report it as being unsatisfactory on account of the territory being too large for one man to supervise. Without exception states having township supervision report it as being in the main satisfactory.

(10) Answers to question 10, are in many instances very indefinite, but, as a rule, indicate that teachers are employed by local directors in states in which the township or the county is the unit.

(11) In all the states with but four or five exceptions the boards which employ the teachers have entire control of the schools, thus avoiding the conflict of authority between two boards of education such as we have in Ohio.

(12) Out of eighteen state commissioners of common schools who express an opinion regarding the merits of the "Workman Law" seventeen pronounce it correct in principle and think that it is an improvement over the old system and that it will be of benefit to the country schools. A few of these do not think that the change made by this law is radical enough, but express the opinion that the township board should be composed of a smaller number and elected at large.

It is not necessary in this connection to discuss at length the conclusions which may be derived from the study of the above summary of answers. The following conclusions will be evident to any one who will take the trouble to give the subject careful study:

First, the educational systems of the different states are of such a nature as to indicate that it is not considered good policy to divide responsibility between different boards of education.

Second, that the township is unquestionably the correct educational unit.

Third, that careful inspection and supervision of work always prove beneficial to a system of schools.

Fourth, the experience of a great majority of the states having county supervision is that the county is too large to be supervised by one man.

Fifth, that township supervision in its practical workings, which is possible under the present law in Ohio, is vastly superior to county supervision.

BOXWELL LAW.

Closely allied to the "Workman Law" in the benefits which it will bring to the country schools, is the law providing for graduation from the schools of the sub-districts and special districts, named from its author the "Boxwell Law." This idea of having pupils do their work in accordance with some definite plan and with some definite object in view has for many years been embodied in the graded school system of our state, but in the great majority of sub-district schools the work has been done without particular reference to any objective point. Two or three years since, the teachers and others interested in the improvement of these schools in Warren county developed a plan for more systematic work leading up to a graduation in the schools of that county. This plan proved to be so successful that the law, referred to above, embodying this idea was passed.

It was my privilege to be present June 4th at the graduating exercises held under this law at Lebanon, Warren county, where this move

ment originated; and the great interest manifested there by both pupils and patrons, and which, no doubt, exists in many other counties throughout the state, is positive evidence of the fact that not only teachers, but also parents are becoming thoroughly aroused to the great importance of the education of their boys and girls. This must result in great good to the schools.

Although this law was not passed until near the close of the session, yet the results of the examinations held in April and May far exceeded the expectations of its most sanguine friends. Sixty-three out of eighty-eight counties held examinations and there is good reason to believe that at the next examination under this law, all the counties will be represented. At these examinations there were 2131 applicants, of which 1062 were boys and 1069 girls. Of this number 687 boys and 654 girls were awarded diplomas as provided for in the law. These statements are sufficient evidence of the educational interest this law has aroused in the different counties of our state. While the section of the law which provides for the payment of the tuition in any village or city high school of the county to which the passage of the examination admits them, is only permissive in its character, it is quite gratifying to know that a great many township boards have voted to pay this tuition, and it is confidently hoped that a still larger number will take advantage of this important provision in the future.

COMPULSORY EDUCATION.

There is no doubt that the Compulsory Education Law, originally passed in 1889, and amended in 1890, '91 and '92, is productive of good results. The last amendment to this law, passed April 18, 1892, which contains the provision, "that all youth between eight and sixteen years of age not engaged in some regular employment shall attend school for the full term the schools of the district in which they reside, are continued in the school year, unless excused for the reasons named, etc.," is a very valuable one and, no doubt, will result in keeping in the schools many boys and girls who have heretofore had none of the advantages growing out of the regular attendance upon these schools.

The effect of this act (89 O. L. 389) came before Attorney-General Richards on a question submitted by superintendent Stiles of the Girls' Industrial Home, the question being, whether a girl fifteen years of age and able to read and write the English language, could be committed to and received by that Institution on complaint of truancy made by a truant officer before a Probate Judge under the compulsory education act. In response to this question, the Attorney-General gave the following official opinion:

OFFICE OF ATTORNEY-GENERAL,
COLUMBUS, O., Dec. 14, 1892. }

CAPT. A. W. STILES,

Superintendent, Girls' Industrial Home, Delaware, Ohio.

DEAR SIR:—You have submitted to me the commitment papers in the matter of Rhode Ratcliff, sent to your institution from Lawrence county, and requested my opinion as to whether you have the right to receive a girl on the charge of truancy and who is over fourteen years old, unless the papers show she is unable to read and write the English language.

Prior to the passage of the act of April 18, 1892, (89 O. L. 389) a child over fourteen could not have been committed to your institution on the complaint of a truant officer for truancy, under the compulsory education act, unless it was charged and appeared that it could not read and write the English language, but by the amendment to section 1 of the compulsory education law made by the act mentioned "all youth between eight and sixteen years of age, not engaged in some regular employment" are required to attend school for the full term unless lawfully excused and youth absenting themselves from school without such excuse (and section 1 sets out the only available excuses) are subject to the penalties of section 8 of the compulsory education act, that is, they are liable to be sent to your institution and the other institutions named in that section. I return the papers.

Very respectfully,

J. K. RICHARDS,
Attorney-General.

In this connection, it may be well to note that the parents or guardians of youth between eight and sixteen years of age not engaged in some regular employment, are required to send them to school, unless lawfully excused from such duty, under the penalty of section 8 of the compulsory education act.

TEXT-BOOKS.

The law passed May 4, 1891, "to create a state school book board and provide for supplying the schools of Ohio with good and sufficient school books at the lowest prices at which such books can be furnished," went into effect as provided in the law and seems to be quite satisfactory in its operations. In accordance with one of the provisions of this law a "List of State Contract Prices" together with a circular of information was issued from this office, August 10, 1891, by the State Commissioner of Common Schools as Secretary of the Board. While this law in the majority of its features is easy of interpretation, there is some difference of opinion regarding certain points. For instance that part of the law which provides for the addition of new books to the list, is not easy of construction and might be so amended as to render its execution much more effective. Again, the law as it now exists provides for the purchase and sale of text-books either by the boards themselves or through some agent appointed by them, but it is not clearly defined in the law who shall pay the freight on books when said books are handled by these agents. Many letters received at this office indicate that there is, in many instances, a misunderstanding between boards of education and their appointed agents regarding this matter.

The law should be so amended in this respect as to render its meaning perfectly clear. It might also be well to extend the powers of the boards of education under this law by authorizing them to furnish these books free of charge to the pupils attending the schools under their control whenever in their judgment it shall seem wise. It will thus be left with each community to dispose of the question of free text-books in such manner as it may deem best.

READING CIRCLES.

The correspondents, distribution of circulars, certificates, membership cards, etc., were, at the last meeting of the board of control, placed in the hands of the state commissioner of common schools. Great good has been done for the teachers of Ohio by this movement, organized nearly ten years since, and still greater good can be done in the future, if the work can be extended to all the counties of the state. To this end the hearty co-operation of teachers and other friends of education is earnestly requested. The time to begin the organization of the circle is at the county institute, and it is earnestly requested that institute committees, examiners, teachers, superintendents, and institute workers give this important work their careful attention and earnest support. With teachers fully alive to the great *importance of reading themselves* it is reasonable to hope that there will be a *renewed interest in the reading of pupils*, and it is certainly very necessary that there should be. No more important question presents itself to-day than the one relating to what the boys and girls of our country shall read. Our compulsory laws are bringing them all into our schools. We are educating a nation of readers, but our duty does not end with merely teaching these pupils *how to read*; we must go further and help them to know *what to read*, and there is no better way to do this than to place in their hands while in school some of the very best literature. In answering this question of *what to read* we are greatly aided by having placed within our reach at a very small expense many excellent books. To aid in this work, a pupils' reading course has been carefully prepared by the board of control. This course contains both a required and recommended list of the very best books suitable for the different grades of pupils, and the attention of parents, teachers, and boards of education is called to the great importance of this matter.

VISITS.

(1.) County Institutes:—Since entering upon my official duties—April 16, 1892—it has been my privilege to take part in the exercises of the following county institutes:

Adams, Athens, Auglaize, Brown, Butler, Crawford, Cuyahoga, Fairfield, Fayette, Franklin, Gallia, Guernsey, Hamilton, Harrison, Henry, Highland, Hocking, Holmes, Jackson, Lorain, Mahoning, Marion, Monroe, Morgan, Muskingum, Ottawa, Paulding, Pickaway, Pike, Preble, Putnam

Richland, Ross, Tuscarawas, Union, Van Wert, Washington, Wood, Wyandot. After having visited these thirty-nine counties, I am impressed more than ever before with the great importance of the county institute as a factor in our educational system. A majority of these institutes were well attended, and the interest manifested was such as to insure good results. A few thoughts growing out of these visits may not be out of place in this connection. The idea contained in the oft repeated statement, "as is the teacher, so is the school," may be applied to the institute by saying, as is the executive committee, so is the institute. I have observed that when the members of that committee are thoroughly alive to their duties and to their responsibilities, the institute is almost certain to be a success. Such committees always employ their instructors at an early date, thoroughly organize their county, and call to their aid all the influences that may be brought to bear on the successful prosecution of their work.

The county examiners also have a great influence in determining the success or failure of the institute. Their co-operation is generally considered by the teachers as a sufficient indication that they look upon the work as important, and, as a result, the teachers themselves are ready to follow their example and attend the meetings. *The interest manifested by the county examiners in the educational affairs of their county is always a true index to the interest taken by the teachers of the county in their work.* As a rule, the best institutes are found in those counties in which meetings are held at different times throughout the year, and it is encouraging to note that in a majority of counties such organizations as Teachers' Associations exist. In these associations the best teachers of the different counties are always found taking an active part.

The whole state seems to be intensely interested in the recent school legislation—especially the Workman and Boxwell laws; and, in several counties not only the teachers, but also the directors and patrons joined heartily in the discussion of these important educational measures. All this must result in good to the schools. In my judgment this feature of "Directors' Day" is a very important one, and should be adopted by all the counties of the state. It will take time and hard work on the part of the committee to make it a success, but anything that tends to bring about a closer sympathy and better understanding between teachers and directors should receive recognition and encouragement.

While there are many classes who attend the institutes, they may be divided into two general classes: (1.) Those who have had little or no experience, and who desire information and direction regarding the details of the work. (2.) Those who have had several years' experience and who attend the institute largely as a matter of duty, desiring to set the proper example before the younger teachers of the county. This being true, it might be well to provide two general classes of work adapted to these two general classes of teachers. In order to reach the first class

there should be something of repetition every year. Young teachers should have the benefit of the experience of those who have been over the ground, and are thus prepared to give information regarding the best methods of teaching the different subjects and of treating the many difficulties that arise in school management. To provide for the second class there might be a course of instruction outlined, extending through a series of years and having in view some definite object. Such a course would be beneficial to all of the teachers. For example, a course in literature could be mapped out a year or more in advance, covering certain definite grounds and the teachers of the county be advised to direct their reading in accordance with its provisions. The instructor would of course be employed with this end in view, and could do much better work with his hearers prepared for his lectures, and thus in full sympathy with him in what he might have to say. The work of the teachers' reading circle might be taken up in this manner. Many ways of carrying out the idea will suggest themselves.

(2.) Teachers' Associations:—I have also had the pleasure of attending the meeting of the national education association at Saratoga, the state teachers' association at Cleveland, the central Ohio association at Columbus, the eastern Ohio association at Steubenville, the northeastern association at Canton, and meetings of the various educational associations at Urbana, Chicago Junction, Mt. Vernon, Delaware, Xenia, Orrville, Celina, Lima and Columbus. There can be no doubt of the great good growing out of the discussions at these associations, *and the time has come in our educational progress when no county can afford not to hold such meetings, and no teacher can hope to attain the highest success who does not attend them.* It has also been my privilege to attend the closing exercises of the following high schools, normals and colleges:

(1.) High schools.—Middleport, Basil, Dublin, St. Paul, Alpha, Madison township, Milford Center, Somerset, Quaker City, Cambridge, Carrollton, Malvern, Canal Dover, New London, Lebanon (county commencement under Boxwell law), Caldwell, Tiffin, Pataskala, and Defiance. (Also attended the dedicatory exercises of new township high school building at Reno, Washington county.)

(2.) Normal Schools and Colleges: Scio, Columbus city normal, Ada, and Ohio state university.

These exercises generally were of a high order, and the interest such as to indicate that the higher education is constantly growing in favor. In this connection it is very gratifying to be able to state that there is a closer sympathy between our high schools and the colleges and universities each year, and that, as a result, large numbers of these high school graduates are entering upon a college course. That they are able to sustain themselves after entering college, and in many instances take high rank is good evidence of the thorough work done in many of the high schools of our state and should be great encouragement to the pupils now in the public schools to put forth their best efforts.

In making the visits enumerated above, over 14,000 miles were traveled and nearly 100 talks made.

THE STATE BOARD OF SCHOOL EXAMINERS.

The term of Supt. William J. White, of Dayton, O., expired August 31, 1892. To fill this vacancy Supt. Lewis D. Bonebrake, of Mt. Vernon, Ohio, was appointed for the full term of five years. The board now consists of the following members:

Edward T. Nelson, Delaware, O.,	term expires Aug.	31, 1893.
James W. Knott, Wooster, O.,	" "	31, 1894.
Edmund A. Jones, Massillon, O.,	" "	31, 1895.
J. C. Hartzler, Newark, O.,	" "	31, 1896.
Lewis D. Bonebrake, Mt. Vernon, O.,	" "	31, 1897.

APPENDIX.

Special attention is called to the constitution of Ohio which is published in the appendix at the request of many superintendents and teachers and with the belief that it should be carefully studied by the teachers and pupils of the public schools; also to the report of the meeting of the state association of school examiners, received too late for insertion in the body of this report.

Very respectfully,

OSCAR. T. CORSON.

State Commissioner of Common Schools

GENERAL SUMMARY.

SCHOOL DISTRICTS.

	1890.	1891.	1892.
*Township districts.....	1,347	1,320	1,347
Separate districts.....	823	829	850
Whole number of districts.....	2,170	2,149	2,197
Sub-divisions in township districts (sub-districts)	11,226	10,450	11,289

[See table IV.]

*Two counties did not report in 1891.

TEACHERS.

Statistics of Separate Districts.

There are twenty-three city districts of the first-class; that is, cities having a greater population than 10,000 at the census of 1890. There are twenty-nine city districts of the second-class; that is, cities having a less population than 10,000 in 1890. There are 850 village and special districts. Many of these last have made no report for the year 1891-92, and some of the reports that have been received are imperfect.

TABLE XV (a)—CITY DISTRICTS.

Cities.	Receipts for the year.	Expendi- tures for the year.	School houses erected within the year.		Cost of school-houses erected, in- cluding sites.	Elementary.	No. of school houses in the district.	Value of school houses and sites.	Value of other school property, furniture apparatus, etc.

REPORT OF THE STATE BOARD OF SCHOOL EXAMINERS.

Two meetings of the Board for the examination of applicants for certificates were held during the year, one at Columbus, December 29th, 30th and 31st, 1891, and one at Cleveland, June 30th and July 1st and 2nd, 1892. At these meetings certificates were issued to the following named persons:

COLUMBUS MEETING.

Examiners—W. J. White, E. T. Nelson, Alston Ellis, J. W. Knott, E. A. Jones.

HIGH SCHOOL, LIFE.

Edward F. Brewster.
Ralph M. Brown.
E. B. Cox.
C. W. Gilgen.
Fletcher Hawk.
J. E. McKean.

E. E. Richards.
Frank Smith.
E. M. Van Cleve.
H. B. Williams.
James E. Yarnell.

COMMON SCHOOL, LIFE.

Carey Boggess.
George P. Deshler.
B. F. Finkel.
C. M. Flowers.
J. W. Guthrie.
George P. Harmount.
E. C. Hedrick.
G. W. Hoffman.
S. A. Muchmore.

Miss Clara G. Orton.
Miss Olive Rush.
U. M. Shappell.
Henry B. Smith.
George W. Tooill.
Mrs. Frank G. M. Van Slyck.
John W. Watson.
W. M. Wikoff.

CLEVELAND MEETING.

Examiners—W. J. White, E. T. Nelson, J. W. Knott, E. A. Jones, J. C. Hartzler.

HIGH SCHOOL, LIFE.

J. C. Cooper, George P. Deshler, Clara G. Orton, Henry R. Warner.

COMMON SCHOOL, LIFE.

Millard F. Andrew.
Jasper C. Barnes.
R. B. Bennett.
W. S. Cadman.
Clifton D. Hubbell.
Miss Louise John.
J. L. Jordan.
Samuel T. Logan.
Edward Maag.
J. V. McMillan.

U. L. Monce.
E. L. Moseley.
Miss Anna M. Nutting.
J. E. Ockerman.
E. E. Rayman.
Geo. E. Ryan.
E. E. Smock.
W. P. Vandervoort.
Sylvester Wilkins.

EXAMINATION QUESTIONS

USED BY THE STATE BOARD AT THE MEETINGS HELD AT CLEVELAND
IN JULY AND AT COLUMBUS IN DECEMBER, 1892.

JULY MEETING.

ORTHOGRAPHY.

1. Of what does orthography treat? Give the derivation of the word. Of what does orthœpy treat?
 2. In English words, what determine the number of syllables? What is the organ of voice, and what are the organs of speech?
 3. What is a mute or close consonant? Give the list of them. What consonants are called liquids, and why? What consonants are called nasals, and why? What consonants are called sibilants, and why?
 4. What are labials? Give the list of them. What are linguals? Give the list of them.
 5. Mark fully the pronunciation of *vagary*, *hymeneal*, and *orthœpy*. Name and make the best diacritical marks used by our best authors.
-

GRAMMAR.

“Art is the child of Nature; yes,
Her darling child, in whom we trace
The features of the mother’s face,
Her aspect and her attitude,
All her majestic loveliness
Chastened and softened and subdued
Into a more attractive grace,
And with a human sense imbued.
He is the greatest artist, then,
Whether of pencil or of pen,
Who follows nature.”

1. Give the properties of each noun in the selection.
 2. Name each word in the selection governed by the following rule of syntax; tell what part of speech each word is, and to what it belongs: "An adjective or a participle belongs to some noun or pronoun."
 3. Parse the relative pronouns in the selection.
 4. What should be the antecedent of a relative pronoun? Illustrate.
 5. Write a sentence containing a co-ordinate conjunction, immediately followed by a relative clause.
-

UNITED STATES HISTORY.

1. Name five early discoverers; tell what each discovered, and under whose auspices the discoveries were made.
 2. Give an account of three early settlements in the "New World," each under the auspices of a different nation.
 3. Name five wars in which what is now the United States has been engaged; name a prominent battle of each war, and the opposing commanders in each battle.
 4. Name the territorial changes that took place at the close of the French and Indian War.
 5. Name five battles of the war of the Rebellion which occurred in Tennessee, and give the commanding general on each side in each battle.
 6. What territory did the United States acquire by purchase, and from whom?
 7. Give a method for teaching history.
-

GENERAL HISTORY.

1. Give in chronological order, with dates, the divisions into which general history is divided.
2. When and where lived what is known as the "historic race?" Give its subdivisions.
3. Name the authors you have read on Roman history. English history. Give a brief account of the founding of Rome.
4. Under what Roman ruler came the birth of Christ? Contrast the character of Constantine the Great and Nero. Describe the end of Nero's life.
5. Give in chronological order the duration and dates of the periods of Roman history. At what date was Greece incorporated into the Roman Empire?

6. When and why was the Roman army withdrawn from the island of England? What resulted to the natives of the island?
 7. Name some of the events between the time of Alfred the Great and the Norman conquest.
 8. Relate the great events at Runnymede.
 9. Give a brief account of the doings of Henry the Eighth and George the Third.
-

ENGLISH LITERATURE.

1. State what you regard as the beginning of the English language' and name some of the writers of that day.
 2. When and under what circumstances came the revival of learning in England?
 3. By whom was the first entire English translation of the Bible made? Name some of his other literary work.
 4. Give briefly the history of the "Elizabethan English."
 5. Give the leading characteristics of three of the following English authors: Chaucer, Spenser, Shakspeare, Bacon and Milton, and name their masterpieces respectively.
 6. What English author's name is a synonym for "rhetorical elegance?" Quote from him.
 7. When began American literature and who were among the first writers?
 8. Name five of the leading modern American poets, and give your reasons for so classing them.
 9. Outline your reading of American literature.
-

LATIN.

1. Translate: Progredior portu, classis et litora linquens,
sollemnis cum *forte* dapes et tristia dona
ante urbem in luco falsi Simoentis ad undam
libabat *cineri* Andromache, Manisque vocobat
Hectoreum ad tumulum, viridi quem caespite *inanem*
et geminas, *causam* lacrimis, sacraverat, *aras*.
2. Parse italicised words.
3. Translate: Helvetii cum omnibus suis carris secuti impedimenta in unum locum contulerunt; ipsi confertissimi acie, rejecto nostro equitatu, phalange facta, sub primam nostram aciem successerunt.
4. Parse: Secuti, impedimenta, confertissima, rejecto, phalange.

5. Translate: Cæsar ad Lingonas litteras nuntiosque misit, ne ~~esset~~ frumento neve alia juvarent; qui si juvissent, se eodem loco, quo Helvetios, habiturum. Ipse triduo intermisso cum omnibus copiis eos sequi coepit.

6. Where is habiturum found and upon what does it depend? What is the case and construction of Helvetios? What is the force of *ui si juvissent?* What is the object of habiturum?

RHETORIC.

1. Give a full definition of rhetoric and a simple outline of its divisions.
2. What general directions would you give a class of beginners in the study of rhetoric?
3. What is the value of the study of rhetoric, as compared with grammar, in the study of literature?
4. Define style, and show how the word came into use.
5. Define "periodic sentence" and "loose sentence," and give their advantages and their disadvantages.
6. Give such quotations as you may remember to illustrate the following figures of speech: Metaphor, simile, irony, personification and hyperbole.
- 7-8. What are the essentials of an oration? An argument?
- 9-10. Give rhetorical analysis of the following:

Now the bright morning star, day's harbinger,
Comes dancing from the East, and leads with her
The flowery May, who from her green lap throws
The yellow cowslip, and the pale primrose.

PHYSIOLOGY.

1. Describe the capillaries. How are they fitted to irrigate the tissues?
2. Describe the valves of the heart and their actions.
3. Why is the pulse lost in the capillaries?
4. Name the parts through which the air passes to the lungs.
5. Describe the several functions of the liver.
6. Explain the working of the different classes of joints.
7. What is a reflex action?
8. Name the different parts of the eye in their order and explain function of each.

9. State the effect of alcohol: *a*, on heart; *b*, on circulation; *c*, on brain.
 10. What instruction do you give in hygiene?
-

LOGIC.

1. What is Logic? Explain the use of the terms *object* and *subject*, *objective* and *subjective*, *objectively* and *subjectively* as applied to that about which the mind thinks. Distinguish between intuitive faculties and discursive faculties.
 2. When is a judgment said to be universal? Give an example. When is it said to be particular? Give an example.
 3. What is a categorical judgment? Give an example. What is a hypothetical judgment? Hypothetical judgments are of what three classes? Give an example of each.
 4. What is immediate inference? What is mediate inference? Give an example.
 5. What is a syllogism? Give an example. In your syllogism, which is the major premise? The minor premise? The conclusion?
-

GEOGRAPHY.

1. Show by diagram the great circle of illumination on December 21.
2. What is the present condition of the earth's interior, and what are the effects of this condition? Give reasons.
3. Name and locate the predominant mountain system of each of the grand divisions, and the principal river system of each.
4. What are the leading wheat growing countries of the world?
5. Describe the leading forms of government of the world and give an example of each.
6. What nations own islands in the West Indies? Tell which belong to each.
7. On what bodies of water would you sail in going from Trieste to Chicago by water?
8. Name a characteristic animal of Australia. Of South America. Of India. Of Africa.
9. Of what is each of the following cities the capital: Tokio? Constantinople? Brussels? Copenhagen? Olympia?
10. Name the States that touch Lake Michigan and give the capital of each.

CIVIL GOVERNMENT.

1. What are the three branches of our national government? What are the functions of each? In what respects do two of these departments overlap each other with respect to their functions?
 2. What is meant by the privilege of *habeas corpus*? What is meant by *ex post facto* laws? What is meant by "bills of attainder?"
 3. What body has the right to impeach United States officers? What body tries the impeachments? How large a vote is necessary to convict in impeachments?
 4. In what two ways may amendments to the Constitution be proposed? In what two ways may they be ratified? How many amendments have been ratified, and to what people do the last three apply?
 5. What do you understand by "tariff for revenue only?" By "protective tariff?" What do you understand to be meant by the expression: "The free and unlimited coinage of silver?"
-

POLITICAL ECONOMY.

1. Give a complete definition of political economy, and name the general divisions of the subject.
 2. Give clear distinctions between value and utility, between money and currency, and explain what you regard as the base of wealth.
 3. Assign reasons for or against the financial policy pursued by Congress during the Civil War.
 4. Name some of the advantages and disadvantages of the division of labor.
 5. What is meant by a mixed currency? What are its advantages? Disadvantages?
 6. What must regulate an issue of paper currency to be safe? Give historic or other reasons?
 7. What effect has education on the laboring classes?
 8. At the close of the Civil War the national debt was \$2,300,-000,000. Give your theory of the best way, both as to time and manner, of paying off the debt.
 9. Name the authors you have read on political economy, and give their characteristics.
-

GEOLOGY.

1. Name the leading writers on geology and give a list of their most important publications.
2. State in full the arguments in support of the theory of the earth's central fluidity.

3. Show that metamorphic rocks were stratified, and not igneous.
 4. Name the several formations found in Ohio; give their location and economic value.
 5. Give a full account of the carboniferous formation in the United States; the distribution and extent of the several coal areas; describe the several varieties of coal; give some account of the methods of mining coal, and the value of yearly output.
-

ZOOLOGY.

1. Give some account of the life of Darwin; the name of his most important publication; the line of argument advanced.
 2. What are the distinguishing characteristics of vertebrata; of articulata; of protozoa?
 3. Explain instinct and habit as found in animals.
 4. What do you mean by the term *fauna*? Why should the fauna of Europe differ from that of Africa? Why should the fauna of the Atlantic coast differ from that of Ohio, Colorado, Texas and Utah?
 5. Select some animal with which you are *well* acquainted:
 - (a) Give its zoological classification.
 - (b) Show in what respects it differs from other species or genera.
 - (c) Give an account of its development.
 - (d) State its distribution and habit.
 - (e) Is it a native or an introduced species? If introduced, when, by whom, or by what agency? Have its characters changed?
-

PSYCHOLOGY.

1. Define psychology *as a science*.
2. Give such an outline of the subject of psychology as you would elaborate before a class of beginners.
3. Distinguish between soul and spirit, and explain the relationships between the human spirit and the body.
- 4-5. What are sense-perceptions? Acquired perceptions?
- 6-7. Is conscience a faculty? If so, to which of the other faculties is it more nearly related?
- 8-9. Into what classes do you divide the intuitions?
10. State what you have done to acquaint yourself with the subject before you.

BOTANY.

1. Describe a typical flower, including a description of all the parts in their true order and their functions.
 2. Describe a leaf; make drawings of its several parts.
 3. Trace the development of a plant from the seed, naming the several stages.
 4. Compare growth in exogens with that in endogens.
 5. Give a careful description of underground stems.
 6. Explain the flow of sap.
 7. Explain the growth of roots.
 8. Describe the process of fertilization in plants.
 9. Describe in full a species from the genus Ranunculus.
 10. Mention the character of the rosaceæ, the leguminosæ and the liliaceæ.
-

PHYSICS.

1. How would you illustrate to a class the properties of impenetrability and inertia?
 2. Find the length of a pendulum that will vibrate 5 times in 4 seconds.
 3. Find the pressure on one side of a cistern 2 m. square and 4 m. high, filled with water. How would you illustrate to a class the upward pressure of liquids?
 4. Give two illustrations of each class of lever, and state the law of the pulley.
 5. A ball weighing 970 grains, weighs in water 895 grains, in alcohol 910 grains; find the specific gravity of the alcohol.
 6. What apparatus would you suggest to illustrate the subject of light?
 7. Upon what principle does the process of distillation depend? Define latent and specific heat.
 8. A liter of air is measured at $0^{\circ}\text{C}.$, and 760 mm.; what volume will it occupy at 740 mm., and $18^{\circ}\text{C}.$?
 9. How does temperature affect the velocity of sound? Upon what does pitch of sound depend? How can this be shown to a class?
 10. Define ampere, volt, and ohm. Explain fully electrification by induction.
-

CHEMISTRY.

1. How would you illustrate to a class the difference between a physical and a chemical change?

2. What per cent. of nitric acid is nitrogen?
3. Give the composition of air by volume and weight. How can it be shown that air is a mixture and not a chemical compound?
4. How would you prepare chlorine for experimental purposes?
5. Indicate briefly the experiments you would make with carbon dioxide.
6. Describe the process of smelting iron ore, and explain the chemical changes.
7. How many liters of oxygen can be obtained from 10 grams of potassium chlorate when the barometer reads 750 mm., and the thermometer 25° ?
8. Represent the reaction in alcoholic fermentation.
9. What are bases? What is a salt? What is meant by quantivalues?
10. Give the properties of sodium. Name its compounds, and give the formula for each.

ARITHMETIC.

1. A buys an article and sells it so as to gain $12\frac{1}{2}$ per cent. If he had bought it at 10 per cent. less, and sold it for \$18 less, he would have gained \$20. Find the cost of the article.
2. Divide $\frac{7}{8}$ by $\frac{5}{7}$ and explain as you would to a class.
3. (a) Reduce .68494 to a common fraction in its lowest terms.
(b) What part of .390625 is .05?
4. What per cent. of 10 pounds troy is 6 pounds avoirdupois?
5. A reservoir is 2.80 m. long, 1.50 m. wide, and 1.25 m. deep. Find how many liters it contains when full and to what height it would be necessary to raise it that it might contain 10 cbm.
6. How many per cent. above cost must a man mark his goods in order to take off 15 per cent., and still make a profit of 15 per cent? Give analysis.
7. On what per cent. of stock must an investment have been made from which \$185.50 was derived yearly, and which, when sold out at 97, brought \$5,141?
8. Find the interest due June 30, 1892, on a note dated March 30, 1887, for \$1,800 with interest payable annually, at 6 per cent., when no interest has been paid.
9. A and B join capitals in the ratio of 7:11. At the end of 7 mos. A withdraws $\frac{1}{2}$ of his, and B $\frac{1}{3}$ of his; after 11 months more they divide a profit of \$10,092. What is the share of each?
10. A ball 3 inches in diameter weighs 4 lbs.; another ball of the same metal weighs 9 pounds. Find the diameter of the second ball to the nearest thousandths of an inch.

ALGEBRA.

1. Add $\frac{a}{a-b}$, $\frac{b}{b-c}$, $\frac{c}{c-d}$.
 2. Multiply $\frac{x^4-18x^2+80}{x^4+18x^2+80}$ by $\frac{x^4+2x^2-80}{x^4-2x^2-80}$.
 3. Simplify $3\sqrt[5]{64a^5 b^{10} c^{12}}$ and $5\sqrt[5]{486a^{5m} b^{10n} c}$.
 4. A drover bought cattle for \$1,350, and sold all but 20 for \$1,000, and gained \$10 a head on those sold. How many did he buy?
 5. $x+y+z=12$; $x+y-z=2$; $x^2+y^2=z^2$; find the value of x , y and z .
-

GEOMETRY.

1. What is meant by an inscribed angle? How is it measured? Demonstrate.
 2. Explain what is meant in geometry by similar, equivalent, and equal figures.
 3. Prove that the side of a regular hexagon inscribed in a circle is equal to the radius of the circle.
 4. What is the difference between the perimeters of two lots of land, each containing an acre, if one is a square and the other a circle?
 5. Problem—To describe a circle in a given triangle.
 6. How do you find the volume of a triangular pyramid? Explain geometrically.
 7. Explain and illustrate the difference between a direct and indirect demonstration.
 8. Prove that the difference between the squares constructed upon two straight lines is equivalent to the rectangle of the sum and difference of these lines.
 9. Deduce the rule for finding the convex surface of a cone.
 10. State some of the advantages to be derived from the study of geometry.
-

TRIGONOMETRY.

1. What is the logarithm of a number? What is the base of a system of logarithms? In the common system, what base is used? If a number is an exact power of 10, what kind of a number is its logarithm?
2. What fundamental operations of arithmetic may be performed by using logarithms? Write the rule to perform each of these fundamental operations by means of logarithms.

3. Define sine, tangent, and secant. What is an acute-angled triangle? To what is the sine of an arc of 30° equal? Prove this. To what is the cosine of 30° equal? The tangent of 30° ?
 4. To what are the sine, cosine, and tangent of 45° respectively equal? Prove this.
 5. In spherical trigonometry, what are Napier's circular parts? Write Napier's two rules for circular parts. When are two parts of a spherical of the same species?
-

ASTRONOMY.

1. Define the following terms: Azimuth, perigee, quadrature, aphelion, and radius vector.
 2. Name the planets in order of their size, and give the number of satellites belonging to each.
 3. How do you explain the inequality of our days and nights?
 4. Compare Jupiter with the earth as to size, inclination of axis, time of rotation, and length of year.
 5. What constitutes a sidereal year? How does it differ from a solar year? Give length of each.
 6. Under what circumstances do we have an annular eclipse of the sun? What eclipses occur in 1892?
 7. Name six of the brightest constellations now visible at 10 o'clock in the evening.
 8. What do know of the chemical constituents of the sun? How has this knowledge been obtained?
 9. Describe the ring system of Saturn. What is the present theory in regard to the structure of these rings?
 10. For what is each of the following persons noted in connection with the science of astronomy: Ptolemy, Copernicus, Kepler, Galileo and Leverrier?
-

THEORY AND PRACTICE.

1. What are the characteristics of a good teacher?
2. How does a knowledge of psychology benefit the teacher?
3. What is attention? How may it be acquired, and of what educational value is it?
4. Give the general principles to be observed in the government of a school.
5. What does the teacher owe to his profession?

DECEMBER MEETING.

ORTHOGRAPHY.

1. What is the subject-matter of Orthography? What is a word? A syllable? A letter?
 2. What is accent? Mark the accent in *vagary*, *obligatory*, *hymen-eal*, *cynosure*, and *orthoepy*.
 3. For what purpose are diacritical marks used? Use all such marks as can be used to indicate the exact pronunciation of the following words: *cage*, *gaseous*, *finger*, *bade*, *made*.
 4. Rewrite the following ten words, correcting the spelling of those that are misspelled: *trissyllable*, *dissyllable*, *forceible*, *seperate*, *cachinnation*, *monies*, *attorneys*, *cemetery*, *saleable*, *collectable*.
 5. Write the three rules of spelling which govern the spelling of the following three derivative words: *making*, *beginner*, *holiest*.
-

ENGLISH GRAMMAR.

1. Analyze or diagram: What kind of culture Shakespere had is uncertain; how much he had is disputed; that he had as much as he wanted and whatever kind he wanted, must be clear to whoever considers the question.—*Lowell*.
 2. Give the construction, in the above, of the words *what*, *how*, *that*, *whatever* and *whoever*.
 3. Parse *had*, *uncertain*, *must be* and *considers*.
 4. Name all the uses of the infinitive, and give an example of each.
 5. What can be used as substantives? Give the four kinds of substantive clauses.
 6. In what cases can *as* be used as a relative pronoun? Illustrate by sentences.
 7. Give sentences to illustrate (a) pronominal adjective; (b) co-ordinate conjunction; (c) conjunctive adverb; (d) compound preposition; (e) an adverb in comparative degree, compared adverbially.
 8. Give a brief history of the origin and development of the English language, and show its relations to other living languages.
-

HISTORY OF THE UNITED STATES.

1. Indicate in brief but satisfactory outline what you would teach about the civil war.

2. Draw a contrast between the New England and the Jamestown civilizations.
 3. Give a full history of the Constitutional Convention. What are our present sources of information regarding the debates of that body?
 4. What are the most conspicuous qualities required by a great soldier? Who of the Americans most nearly measured up to the standard? Give reasons for reply.
 5. What influences in the fifteenth century were at work in Europe to make possible the discovery in America? In this connection give history of Columbus, and tell in what his greatness really consisted.
 6. In what way does history mention the following: Aaron Burr, William Hull, Anthony Wayne, Paul Revere, John Ericsson, Salmon P. Chase and Albert Gallatin.
 7. If required to teach only *ten* dates in U. S. History, which would they be? Why?
-

GENERAL HISTORY.

1. Have you ever read Bulwer's *Last Days of Pompeii*? Froude's Cæsar? Cæsar's *Commentaries* in the Original?
 2. What were the Punic Wars? What effect had they on the government of Rome?
 3. Describe how and when the change was made from Republican Rome to Imperial Rome.
 4. Describe the original inhabitants of Great Britain. State by whom and give dates of at least three invasions into England.
 5. Give a brief state of affairs in France during Napoleon's time.
-

ENGLISH LITERATURE.

1. Name five prominent English prose writers of the seventeenth and eighteenth centuries and name their masterpieces.
2. Who were the authors of the "Dunciad;" "The Traveller;" "The Grave;" "The Vicar of Wakefield?" Give a simple outline of either one of the productions.
3. In what relations did Addison stand to *The Spectator*? In what respects did Addison excel as a writer?
4. Give your opinion of Tennyson as a poet. In what respects was he specially strong?
5. List five American prose writers, and five poets, and name at least two subjects on which each wrote.

LATIN.

1. Write in English: Caesari omnia uno tempore erant agenda: vexillum proponendum, quod erat insigne, cum ad arma concurri oporteret, signum tuba dandum, ab opere revocandi milites, qui paulo longius aggenis petendi causa processerant, arcendi, acies instruenda, milites cohortandi, signum dandum.

2. Give full construction of the following words as used above: *Caesari, oporteret, vexillum, tuba, revocandi, qui* and *aggeris*.

3. Write in Latin: (a). Orgetorix gave his daughter in marriage to Casticus. (b) They were ordered to return on the thirteenth of April. (c). They saw that the camp and legions and commander were involved in great danger. (d). He answered: if he should be willing to forget the old insult, could he lay aside memory?

4. Write in English: (a). Recognosce tandem mecum noctem illam superiorem: jam intelligo multo me vigilare acrius ad salutem quam te ad perniciem rei publicae. (b). Ubi Catilina priore nocte fuit? (c). Conjunctionem non credendo corroboraverunt. (d). Timeo ne veniat.

5. Give some account of the Latin language and literature. What are some of the most approved present methods of teaching Latin? In what particulars have the methods improved during the past ten years?

NOTE.—What Latin writings have you read? How extensive is your experience as a teacher of this subject?

RHETORIC.

1. Name at least two ancient and two modern rhetoricians and give brief sketches of the lives of the first two.

2. Name two of the most important divisions under style, and tell why you so regard them.

3. Under strength of sentences, give at least three rules and fully illustrate them.

4. Show what is meant by figures of speech and tell their value in composition.

5. Define peroration, irony, tautology, meter. Illustrate. Describe the style of Washington's writings.

PSYCHOLOGY.

1-2. Show how the body and spirit, though widely different, are mutually dependent.

3-4. How are natural phenomena discovered? How, the phenomena of the spirit? Illustrate.

5-6. What is a judgment? A concept? Give steps taken in forming a logical concept. Illustrate.

7. Tell briefly what you know about the feelings, and classify them.

8-9. Illustrate how you would train the will in a child.

10. What are the results of the study of psychology with respect to yourself?

LOGIC.

1. What is Logic? What are Intuitive Faculties? What are Dissursive Faculties?

2. Of what does Pure Logic treat? Of what does Applied Logic treat?

3. What is Reasoning? What is meant by immediate Inference? Define its opposite.

4. What is a fallacy? Into what two classes are fallacies divided? Define each.

5. What is Deductive Reasoning? Inductive? Analogical? Which is least certain? Which is most useful?

GEOGRAPHY.

1. Name all the countries of the world which now have a republican form of government.

2. How do you account for that commercial and maritime pre-eminence which England has so long enjoyed?

3. Beginning at the north name in order all the prominent oceanic capes of America.

4. Give the theory of tidal movements, using if need be a diagram to illustrate your answer.

5. What physical agents have been most important in giving great size and wealth to Paris, Berlin, St. Petersburg, Chicago, New York and Denver?

6. Discuss the relation which climate, food-supply and soil bear to the civilization of a country.

7. (a) What sciences contribute most largely to a mastery of this branch? (b) Name ten books, which in practical teaching, supplement most happily the regular text-book study of this branch.

CIVIL GOVERNMENT.

1. What is Government? A limited monarchy? Give an example. What is an absolute monarchy? Give an example.

2. What is a theocracy? Give a historical example. What is a pure democracy? Give a historical example. What is a republic?
 3. What are the essential points of difference between the English Constitution and that of the United States?
 4. Why will Mr. Cleveland get some of the electoral votes in Michigan and Mr. Harrison some? Why will Ohio's electoral vote be divided? How many electoral votes are required at present to elect a President?
 5. How many branches, and what, has the government of Ohio? Give the titles of the chief officers of the executive branch. Name the present President of the Senate of Ohio. The present Speaker of the House of Representatives. Who was elected Secretary of State in Ohio last month?
-

POLITICAL ECONOMY.

1. What are the fundamental truths of political economy?
 2. What always settles the value of a commodity on a natural base? Illustrate.
 - 3-4. Illustrate what is meant by *price*, and *value*, and show which is specific, and which generic.
 5. Illustrate what constitutes the circle of value.
 - 6-7. How do inventions affect production and value? Fully illustrate.
 8. What is the effect of monopolies on production?
 - 9-10. Show how an increase of capital affects wages and profits.
-

GEOLOGY.

1. Construct tables to show the following:
 - (a) The eras and ages of geological history, in their true order.
 - (b) The periods of the American "Paleozoic."
 - (c) The ages and periods of the Ohio series.
2. Describe in detail the geology of your own county, as follows:
 - (a) The formations represented.
 - (b) The character, composition and stratification of the rocks.
 - (c) Their commercial or economic value.
 - (d) The most important fossils.
3. Give an account of the composition, structure and origin of granite.
4. Give a full history of some American falls, rapids, canon, and valley.
5. Give an account of the delta of the Mississippi.

NOTE.—Name the works on geology that you have in your own library; also the names of those that you have studied or taught. What are the best texts?

ZOOLOGY.

1. Give some account of protoplasm.
 2. Give a summary of the doctrine of evolution.
 3. Give the life-history of the frog; also of some insect.
 4. Describe the respiration of the whale, snail, earth-worm, catfish, frog, butterfly and bat.
 5. Give an account of the classes and orders of the vertebrata, naming at least one example under each.
-

PHYSIOLOGY.

1. Describe the capillaries. How are they fitted to irrigate the tissues?
 2. Describe the working of the valves of the heart.
 3. Describe the portal circulation.
 4. What are the functions of the pancreatic juice?
 5. What are the functions of the liver?
 6. Explain what is meant by reflex action.
 7. Name the parts of the eye in their order, and state the function of each.
 8. Give a full account of the action of alcohol on the heart and on the circulation of the blood.
 9. Effect of tobacco on the brain and nervous system.
 10. Explain how the air is changed by combustion and by respiration; and give the laws of ventilation.
-

BOTANY.

1. Give the complete life-history of some common plant, starting with the seed and ending with the fruit.
(Your answer should include a description of each part as it is developed. Make drawings of the parts, if they will aid you.)
 2. State the more important differences between the Phanerogamous and the Cryptogamous plants.
 3. What is sap? Explain the circulation of the sap.
 4. Explain the relations of insects to plants.
 5. By what agencies are new varieties of plants produced?
-

PHYSICS.

1. Describe an experiment that will illustrate the impenetrability of matter.

2. Explain what is meant by the parallelogram of forces. Illustrate by diagram.
 3. A body passed over 1608 feet during its fall; what was the time required? What velocity did it finally obtain?
 4. How can it be shown that air has weight?
 5. Define sound. What is the velocity of sound in the air? How is its velocity affected by temperature?
 6. What causes water to rise in a common lifting-pump? What causes air to rise in an air-pump?
 7. A piece of lead weighing 600g. weighs 545g. in water and 547g. in alcohol. (*a*) Find the specific gravity of the lead; (*b*) of the alcohol, (*c*) find the bulk of the lead.
 8. What is meant by electric-motive force? Define Ohm, volt and ampere.
 9. What is an electrical-magnet?
 10. Define energy. Name several varieties of energy. Explain what is meant by conservation of energy.
-

CHEMISTRY.

1. Describe the usual method of preparing hydrogen.
 2. What per cent. of pure marble is oxygen?
 3. Give a characteristic property of each of the following: (*a*) Pb.; (*b*) N.; (*c*) Hg.; (*d*) Na.; (*e*) Pt.
 4. How can it be shown that air is a mechanical mixture and not a chemical compound?
 5. Give the properties and test of C O₂.
 6. Define (*a*) Molecule, (*b*) atom, (*c*) chemism, (*d*) valence, and (*e*) isomeric compounds.
 7. How much K C l O₃ must be employed to make an amount of 0 which shall measure 100 liters at 18° C and 760 mim?
 8. Give the chemical formula for each of the following: Salt, nitric-acid, soda, water, saleratus, copperas, calomel, silver nitrate, starch and cane-sugar.
 9. How are petrifications formed?
 10. Give the chemical composition of alcohol. What change takes place in alcoholic fermentation? Represent the reaction.
-

ARITHMETIC.

1. What part of $\frac{5}{8}$ is $\frac{2}{5}$? Give analysis.
2. Express decimally $\frac{7\frac{1}{2}}{8\frac{1}{3}}$ and $\frac{8\frac{3}{4}}{7\frac{7}{8}}$ and divide the former by the latter.

3. If I sell $\frac{5}{6}$ of an article for what $\frac{9}{10}$ of it cost, what per cent. do I gain?

4. What is the difference between the simple interest and the annual interest of \$1,560 from June 12, 1890, to January 18, 1896, at 5 per cent.?

5. A pasture whose length is three times its width contains 37 acres, 155 square rods. What would it cost to fence it at 87½ cents a rod.

6. How would you present to a class the subject of subtraction of fractions? Take as an example $\frac{5}{7} - \frac{2}{3}$.

7. Sold goods at \$25.20, and 16½ per cent. off, and the discounts amounted to \$187.50. What was the list price?

8. What is the difference between a composite number and a power? Define ratio, reciprocal, and liter.

9. What income in currency would be realized by investing \$6,468.75 in U. S. 6 per cent. bonds at 112, brokerage $\frac{1}{2}$ per cent. when gold is 105?

10. The surface of a pyramid is 560 square inches, what is the surface of a similar pyramid whose volume is 27 times as great?

ALGEBRA.

1. Give the prime factors of $m^8x + m^8y - n^8x - n^8y$.
2. Divide $\frac{1-x^3}{1+x^3}$ $\frac{1-x}{1+x}$ by $\frac{1+x^2}{1-x^2} + \frac{1+x}{1-x}$
3. Find the H. C. D. and the L. C. M. of $4x^4 - 9x^2 + 6x - 1$ and $6x^3 - 7x^2 + 1$.

4. Rationalize $\frac{\sqrt{3}}{2-\sqrt{3}}$ $\frac{2-\sqrt{-2}}{2+\sqrt{-2}}$

5. Find the values of x and y from $y^2 + xy = 4$. $x^2 + 2y^2 - xy = 8$.

6. Find two numbers whose sum, product and difference of squares are all equal.

7. $\sqrt{2x+1} + 2\sqrt{x} = \frac{21}{\sqrt{2x+1}}$ to find the value of x .

8. The sum of three numbers in arithmetical progression is 18. If the first be increased by 1, and the third by 2, they will be in geometrical progression. Find the numbers.

9. Divide $81x - 16$ by $3x^{\frac{1}{2}} + 2$.

10. There is a number consisting of two digits, which is equal to four times the sum of the digits. If 18 be added to the number the digits will be reversed.
-

GEOMETRY.

1. If one of the angles at the base of an isosceles triangle is double the angle at the vertex, how many degrees in each.

2. Demonstrate: A line drawn parallel to the base of a triangle divides the two sides proportionally.
 3. How many sides has the polygon the sum of whose interior angles is double that of its exterior angles?
 4. Deduce the rules for finding the area of a circle.
 5. Define (a) similar polygons; (b) homologous sides; (c) secant; (d) corollary; and (e) right prism.
 6. Problem: To inscribe an equilateral triangle in a circle.
 7. One of the columns of a temple is 13.09 ft. in circumference, and its volume is 818.125 cu. feet. What is its height?
 8. If four quantities are in proportion, they will be in proportion by division. Give the proof.
 9. Demonstrate: The radius perpendicular to a chord bisects the chord and the arc subtended by it.
 10. What is meant by the axis of a cone? To what is the convex surface of a frustum of a right pyramid equal?
-

TRIGONOMETRY.

1. What is the logarithm of a number? What fundamental operations may be performed by means of logarithms?
 2. If a number is an exact power of 10, what kind of a number is its logarithm? If a number is not an exact power of 10, of what two parts does its logarithm consist, and what is each part technically called?
 3. Write the rule to multiply by means of logarithms. Write the rule to extract roots by means of logarithms.
 4. Define sine, tangent, versed-sine, and secant.
 5. Prove that the sine 30° is equal to one-half of the radius. From this value of the sine, deduce the values of the cosine and the tangent of 30° .
-

ASTRONOMY.

1. Name the planets, in order, beginning with the one nearest the sun. What planets have satellites?
2. Why is it we see but one side of the moon?
3. State the distinction between the sidereal and tropical year. Give the length of each.
4. What is the sun's distance from the earth? How is this determined?
5. Under what circumstances do we have a total eclipse of the moon? An annular eclipse of the sun?

6. Compare Jupiter with the earth as to size, inclination of axis, and period of rotation.
 7. What is known concerning the nature of comets?
 8. Define (*a*) ecliptic, (*b*) right ascension, (*c*) prime vertical, (*d*) radius vector, and (*e*) vernal equinox.
 9. Give Kepler's laws of planetary motion.
 10. What interesting astronomical events have occurred during the year 1892?
-

BOOK-KEEPING.

1. Name and describe the different books required.
 2. If an item is posted on the wrong side of an account how may the mistake be corrected?
 3. Write an interest-bearing note. Transfer the same to a second party.
 4. Write out a bill for a sale of 500 slates, where the discount is 25,
 - 10 & 5. Receipt in full for the firm.
 5. Distinguish between real and personal accounts, and give examples.
 6. Explain the methods of closing accounts:
 - (a) Merchandise, with stock on hand.
 - (b) "Profit and Loss."
 - (c) Bills payable.
 7. Give an example of changing from single to double entry.
 8. What is a "trial balance?" Give an illustration.
-

MUSIC.

1. Reproduce from memory a few measures of all the parts of the familiar music, "My country 'tis of Thee," etc.
2. What are tones? Indicate the relation and meaning of pitch, force and quality.
3. What is accent? Which parts are accented in sextuple measure?
4. Name and explain the effect of the following:

5. Write four measures with signature three flats. Change to four sharps. Give rules for transposition.
6. Give meaning of the terms double, triple, quadruple and sextuple as used in common music.

7. What is meant by Harmony? Give briefly some of the laws.
8. Name some of the great composers, together with some of their most celebrated compositions.

NOTE.—Give briefly your personal preparation and experience in this branch.

THEORY AND PRACTICE.

1. What are the essential characteristics of a great teacher?
2. What treatises on education have you read? Quote a few choice passages therefrom.
3. Give five good reasons for the maintenance of the free common school system.
4. What, in your judgment, are the greatest defects of the common school system? Name any magazine articles, or other discussions, which you have recently read on this subject.
5. Show how the Kindergarten idea has influenced primary work and methods.
6. What is the Ohio school law regarding the suspension and expulsion of pupils?
7. Briefly explain the phrases, "proceeding from the known to the related unknown," "the educational value of a subject," and "the socratic method."
8. Trace, step by step, the progress made by the schools of Ohio during the last fifty years.

Appendix.

REPORT OF THE STATE ASSOCIATION OF SCHOOL EXAMINERS.

The ninth annual meeting of the Ohio Examiners' Association was held at the Library Building, Columbus, Dec. 27 and 28, 1892. There was a fairly good attendance, the boards of thirty-five counties and fifteen cities being represented. Pres. C. W. Bennett, of Piqua, presided. The sessions were all interesting and in the main profitable; at each the time was fully occupied in the informal discussion of numerous topics of interest to examiners. As outcome of these discussions the following resolutions were adopted.

Resolved, That this Association of School Examiners of Ohio favors the recommendation of the State School Commissioner as embodied in his report in reference to a law granting Boards of Education power to furnish free text-books.

That we should use all proper means to make clear the provisions of the Workman Law (H. B. 188) and endeavor to create a public sentiment in its favor by giving the reasons for its enactment and the result it is expected to reach.

That the study of a text-book in psychology by pupils just completing their studies in sub-district schools is of doubtful propriety if not an absolute waste of time, and we recommend in its place some good work on school economy or methods of teaching for those expecting to teach.

That it is well for examiners to name some book or books from which many of their questions in theory and practice are to be taken.

That the plan of permitting teachers who have passed a good examination in the common branches to substitute, at their subsequent examinations, higher branches, has proved an efficient means of encouraging many to go forward in their studies.

That the best method to secure the attendance of teachers at the county institute, is to secure the best professional instruction which can be found in the country.

That this Association respectfully ask the Commissioner to furnish forms for preserving a uniform record of the examinations under the Boxwell Law (H. B. 14,) a form for the diploma and blanks for transmitting the proper statistics to his office.

That the General Assembly be asked to appoint a committee to investigate and report on the workings of the school laws in force and on the condition of the public schools of the state.

That it is the sense of this Association that the State Board of Examiners furnish the different Boards of County Examiners suggestive lists of questions in the common branches of study at least twice a year.

The Association remained in session almost continuously both days of its meeting until time for adjournment. These gatherings have been in the past marked by close attention to work and have borne fruit in divers ways. No more profitable meeting of educators is held in our state.

C. W. BENNETT, *President.*

E. W. VANCLEVE, *Secretary.*

INSTRUCTIONS AND SUGGESTIONS

TO

Township Boards of Education

*Regarding Organization and Methods
of Procedure*

UNDER THE WORKMAN LAW,

*Together With a Suggestive Course of
Study for Country Schools,*

AND

DIRECTIONS FOR TEACHING
THE VARIOUS BRANCHES.

Instructions and Suggestions.

The successful operation of the new school law which goes into effect April 1st, 1893, and which has for its object "the more efficient organization of the common schools in township districts," will depend very largely upon the spirit which characterizes the different boards of education and the methods adopted by them in executing it. It is very important that the boards first elected under this law not only thoroughly understand its provisions, but also that they should adopt such rules and regulations for carrying it into effect as will bring about the best possible results. The purpose of the Legislature in enacting this law was to improve the condition of our country schools by giving them a more efficient organization and thereby insuring a more successful management. It is certainly just that the law be given a fair and impartial trial by means of the application of the most practical methods which the boards in their wisdom can adopt. To aid these boards of education in the proper discharge of their duties under this law the following instructions and suggestions are submitted for their consideration:

ORGANIZATION.

(1.) The method of organization will be the same as heretofore, and as provided for in section 3980 of the Revised Statutes.

(2.) As soon as the organization is complete, the board should proceed to divide their membership into three classes as directed in section 3916 of the law. Boards of five members should be divided into classes of two, two, and one; boards of seven members into classes of two, two, and three; boards of eight members into classes of three, three, and two, and so on. The length of time which each of the three classes is to serve, should be determined by lot as provided for in the above section.

(3.) Townships having only one sub-district are not divided into sub-districts, and hence are not subject to the provisions of this law and will continue under the same management as heretofore.

ORDER OF BUSINESS.

(4.) To facilitate and simplify the work of the boards of education at their meetings, the following or a similar order of business is suggested:

1. Election of president.
2. Reading of minutes of previous meeting and correction and approval of same.
3. Presentation of petitions and memorials.
4. Reports of standing committees.
5. Reports of select committees.
6. Unfinished business.
7. New business.
8. Election of teachers and employees.
9. Presentation of accounts and action thereon.
10. Appointment of standing committees.

(5) In order that the work of the board may be systemized, it is suggested that the following standing committees composed of not more than three members each, be appointed:

1. Committee on school house sites, buildings and furniture.
2. Committee on text-books and course of study.
3. Committee on rules and regulations for government of teachers and pupils.
4. Committee on fuel and school house supplies.
5. Committee on finance.
6. Committee on teachers.

The titles of these various committees indicate the character of the work to be performed by each of them; but since the selection of teachers is one of the most important duties to be performed by any board of education, it is suggested that some plan similar to the following may be adopted:

All teachers desiring positions in the schools of the township should apply, in person, if possible, to one or more members of the committee on teachers appointed by the president of the board, and leave with this committee a certificate, or copy of one, covering the time for which application is made; if an experienced teacher, recommendations from persons living in the district where the applicant last taught, should also be presented; if an inexperienced teacher, statements from competent persons regarding the applicant's general fitness for the work, should be filed. The committee on teachers should also inform themselves as fully as possible as to the needs of the different districts, and the wishes of the patrons in each.

The committee should report to the board of education the result of their investigations, and make such recommendations as their judgment may direct. The board can then act on their recommendation.

always having in view *the one object—the good of all the schools of the township.* The "Workman Law" does not give the member of each sub-district the power to select the teacher for his school; but while the preference of the people of each district as indicated by their representative should have due consideration and influence with the board, at the same time it should be remembered that the election of each teacher must be by a vote of a majority of the entire board.

COURSE OF STUDY.

The law provides that all boards of education shall determine the studies to be pursued in the schools under their control. This implies that a regular course of study should be adopted; in fact such a course of study is an absolute necessity in every well organized school. The subject of a course of study for country schools is one which has been discussed in many counties of the state, and in some counties such courses have been printed and recommended to the different township boards for adoption.

At a very important educational meeting held at Dayton recently this subject was fully discussed, and the school commissioner was requested to appoint a committee of five to prepare a suggestive course in the different branches required by law to be taught, in all the sub-districts of the state. In compliance with this request the following persons were appointed:

C. W. Bennett, Piqua; R. W. Mitchell, Celina; Theodore S. Fox, Centerville; W. W. Donham, Lindale; and J. W. MacKinnon, London. Each member of this committee has had a long and successful experience in connection with the work of the country schools, and four of the members are either at present, or have been within a year, township superintendents of schools.

The following course of study, program of exercises, and suggestions regarding the teaching of the various branches have been prepared by this committee. They are published with the hope that they may be helpful to boards of education, and teachers. It is very evident, to any one who has given the subject any thought, that a course of study adapted to the schools of a town or city will not apply to the classification or grading of schools in the country. In fact the close grading which seems to be a necessity in the management of a large system of schools, such as exists in towns and cities, is not at all desirable in the country. While this close grading, which must result in a large multiplication of classes, should be avoided, it is equally important that the opposite extreme of no organization or classification should be avoided.

For the benefit of both teacher and school, each pupil should be required to do definite work in a definite manner, and, in so far as practicable, in a definite time; but the opportunity should always be given to

each pupil to do his best, and make the greatest possible advancement in his studies, consistent with thoroughness in his work.

To combine the advantages of classification or grading with this freedom of the individual pupil should be the aim of the teacher, and since this combination is, in many respects, more easily reached in the country than in the city, there are many good reasons why the work of the country schools should be equal, if not superior, to the best work of the graded schools of the town or city.

It should be kept in mind constantly that the following course of study, program and directions for teaching different branches are intended to be *simply suggestive*. They may not be applicable as *a whole* to *any one school*, but it is believed that they do contain *suggestions* which are applicable to *all schools*.

PROGRAM OF RECITATIONS.

The program published in connection with the course of study was prepared by a member of the committee who has had a long and successful experience in superintending the schools of a township. It is not intended to indicate the order of exercises, but simply to suggest how the time may be divided among the various classes. It is believed that it will never be necessary to have a larger number of classes than is indicated by this outline, and that in many schools the number may be decreased. The wide-awake teacher will always be on the alert to invent or discover methods by means of which both time and energy can be economized. While a program of daily exercises is an absolute necessity, in order that effective systematic work may be done, pupils should also be directed, by an outline furnished by the teacher, *when to study certain branches*. Such an outline will, of course, be modified very largely by the order of recitations and other surrounding circumstances, but its importance in developing habits of systematic study can not be questioned.

SUGGESTIONS AS TO TEACHING THE DIFFERENT BRANCHES.

It is readily admitted by everyone who has had experience in teaching, that there is a vast difference between theory and practice; that there are many seemingly fine theories which will not stand the test of actual work in the school room. Yet, while this is true, no one doubts that there are certain fixed principles which underlie all good teaching, and that suggestions coming from those who have spent years in studying and applying these principles, are helpful to all who will earnestly and intelligently try to make use of them. The suggestions published in this pamphlet were prepared by the different members of the committee and are submitted for the consideration of the different township boards of education and teachers of the state.

In this connection it may not be out of place to state that the adoption of a course of study will be of very little, if any, benefit unless some one be responsible for carrying out its provisions. In townships having superintendents, of course the superintendent should be held responsible for this work.

In townships not having superintendents, the director of each district should consider it his imperative duty to inspect the work of the school in his district, noting to what extent the teacher has, or has not, carried out the course of study, and other rules and regulations prescribed by the township board of education. In answer to numerous inquiries regarding the law relative to the election of township superintendents, I most respectfully call attention to Sec. 4017 of the law. This section has been in effect since 1873, and has not been changed in any way in the "Workman Law."

O. T. CORSON,
Commissioner.

Outline of Course of Study.

READING.

First year.....	First Reader.
Second year.....	Second Reader.
Third year.....	Third Reader.
Fourth and fifth years.....	Fourth Reader.
Sixth and seventh years.....	Fifth Reader.
Eighth year.....	U. S. History.

LANGUAGE.

First year (First Reader). Language lessons in connection with the reading lesson; conversations with the pupils regarding familiar objects.

Second and third years (Second and Third Readers). Some good text-book in the hands of the teacher; oral lessons; easy sentences; correction of mistakes in every-day language; also uses of punctuation marks and capitalization.

Fourth and fifth years (Fourth Reader). Work as outlined by some good text-book which should, in these years, be in the hands of the pupils.

Sixth and seventh years (Fifth Reader). Elementary grammar.

Eighth year (U. S. History class). Advanced grammar.

GEOGRAPHY.

All geography before the Fourth Reader class should be of a local nature, and should be taught orally.

Fourth and fifth years (Fourth Reader class). Elementary geography; text-book to be used by the pupils.

Sixth and seventh years (Fifth Reader class). Advanced text-book in geography, including such work in physical geography as is found in all such text-books.

Eighth year (U. S. History class). Thorough review of geography in connection with the study of history.

ARITHMETIC.

First year (First Reader). Making figures and Roman numerals; easy combinations in addition and subtraction.

Second and third years (Second and Third Readers). Notation and numeration, addition, subtraction, multiplication, and division thoroughly taught, particular attention being paid to accuracy and rapidity.

Fourth and fifth years (Fourth Reader). Elementary text-book should be used by pupils, but there should also be a constant drill in mental arithmetic.

Sixth and seventh years (Fifth Reader). Advanced text-book in arithmetic with special attention to denominate numbers, fractions, mensuration, simple proportion, percentage and its more practical applications—especially interest.

Eighth year (U. S. History class). Review percentage, complete the text-book, and give a general review in the more important subjects, such as fractions, mensuration, etc.

PHYSIOLOGY.

Oral instruction to the whole school with free use of charts and other appliances. It is not advisable to use text-books in this subject in the lower grades, but if thought best they can be used in the Fifth Reader, and U. S. History classes.

WRITING.

Everyone knows the importance of having this subject well taught, and a special place in the program should be assigned to it. It is suggested that the best time for teaching it is sometime before the morning recess. A good system of copy-books is found in nearly all schools, and the manuals accompanying these contain many valuable suggestions to teachers.

SPELLING.

Spelling should be both oral and written, but since nearly all the spelling to be done in practical life is written, it should have special attention. Every lesson should be a lesson in spelling in that the pupil should be required to learn how to spell the new words found in it.

The teacher should never lose sight of the importance of this subject.

DAILY PROGRAM OF RECITATIONS.

	Monday.	Tuesday.	Wednesday.	Thursday.	Friday.
Opening exercises and Phys...	15	15	15	15	15
Fifth reader.....			25	25	25
Fourth reader.....	20	20		20	20
Third reader.....	15	15	10	15	15
Second reader.....	10-2 8-4	10-2 8-4	10-2 8-4	10-2 8-4	10-2 8-4
First reader					
U. S. History.....	25	25	25		
Arithmetic, 8th year.....	20	20	20	20	20
Arithmetic, 6th and 7th years.....	20	20	20	20	20
Arithmetic, 4th and 5th years.....	15	15	15	15	15
Arithmetic, 2d and 3d years.....	15	15	15	15	15
Numbers, 1st year.....	8	8	8	8	8
Grammar, 8th year.....	20	20	20	20	20
Grammar, 6th and 7th years.....	20	20	20	20	20
Grammar, 4th and 5th years.....	20	20	20	20	20
Language, 2d and 3d years.....	15	15	15	15	15

Writing.....	10	15	15	15	
Rhetorica' exercises.....					95
Intermissions.....	80	80	80	80	80

* This means two recitations of ten minutes each, each day.

† Recite on alternating days

READING.

The most important branch taught in the schools is reading. It is a safe test of a teacher's ability. For if reading is well taught, the teacher usually teaches other subjects well. Progress in modes of teaching reading has not been equal to that of other branches. Teachers are likely to be too easily satisfied, and to permit their classes to lose spirit and relish for the subject. Perhaps the greatest error is that both teachers and pupils often mistake the calling of words, for reading. The foundation for correct habits of reading should be laid in the primary classes. Teachers should themselves be familiarly acquainted with the plainest rules applied to reading. They should practice reading aloud. Good reading comes from imitation. The failure in teaching it is most likely to occur from lack of the teacher's previous practice upon the lesson. The zeal and interest of the class, can never rise above that of the teacher.

FIRST READER.

Teach the child to recognize at sight, using chart or black-board, easy words, such as are found in the first lessons of the reader in use. Begin to form from these words, short sentences. Let this be oral work at first. Begin as soon as possible some simple slate exercises. The teacher to work from the blackboard. New and familiar words to be taught. Keep a list of words learned, upon the board, add to these each day the new words learned. Drill and review daily from these words. Dictate many forms of easy sentences, children to use words taught them, in sentences of their own, with a view to leading them to the meaning and use of words.

The reader not to be used by the child for a few weeks (6 weeks). Blackboard and chart work continued after reader is introduced. Cultivate from the first, proper expression and tones of voice. Pronounce clearly and frequently all new words and sentences. Special attention to be given to the elementary sounds, and the characters which represent them. Daily drill in pronouncing words at sight. There should be, if possible, four recitations a day in the first reader. These lessons should be short, not to exceed ten minutes in length, but bright and spirited.

SECOND READER.

While pronunciation of words is not reading, it should precede the reading lesson as a preparatory exercise. New words to be made out by pupils from their phonic elements through the entire year. Teach carefully the meaning of words and sentences; work out the thought of the lesson; make it clear to pupils. Test the ability of pupils to narrate the lesson in a story, or to reproduce it occasionally from slate exercise.

Begin a more thorough drill, in this grade, of distinct articulation and natural tones. Break up from the first the measured, monotonous, unnatural habits. Teach children to make such diacritical marks as are used thus far. Have frequent and careful drill in spelling by sound.

There should be two recitations a day in the second reader, not to exceed fifteen minutes in length.

THIRD READER.

Special attention given during the year to articulation, emphasis, and punctuation as presented in the Reader. These subjects should be made prominent in this Reader, and be held up firmly, by diligent caution and vigilance through all the higher grades. When rules for reading are introduced no pains should be spared to aid the pupils to make them their own in habit and practice.

Care should be used toward original and independent thought; also in a freedom encouraged to have pupils talk freely about the lesson, asking questions, stat-

ing opinions, giving something the pupil may be familiar with, which may illustrate the thought of the lesson, stating the meaning of new words and sentences.

Strengthen the pupil's power every day to make out words from the phonic elements.

Two lessons a day in the Third Reader from ten to fifteen minutes in length.

FOURTH READER.

Continue and strengthen the drills in phonic sounds and use of diacritical marks. A careful review of principles taught in the other grades. Pupils taught to use and to make all the punctuation marks. Particular attention given to the meaning of words.

Begin the use of the dictionary in the fifth year, and with it teach pupils how to find words, how to pronounce them, and how words may be applied properly.

Begin the lesson with a few moments practice exercise in articulation, pronunciation, emphasis, modulation of voice, etc.

Teach natural tones of voice, and correct former habits of incorrect reading.

Give attention to attitude and manner of holding the book.

FIFTH READER.

Dictionary to be in frequent use for definition and pronunciation of new words. Pupils to give the thought of the lesson in clear and correct language. Pupils taught how to study the lesson; how to avoid rote reading, stumbling and repetition. Pupils should be encouraged to read proper selections from books and periodicals suitable to their age and advancement. These selections should be read before the class and teacher.

Train pupils in silent reading, teach them how to get the thought from the printed page, and to read it so as to cause others to get the sense.

Continue, with great diligence, the short "practice exercise" named, at least twice a week. Break up bad habits. Let pupils have some freedom in the choice of lessons in this advanced work.

SUPPLEMENTARY READING.

Learning to read, like learning to sing, comes from practice, and much of it. Pupils need more reading than is found in their text-books. There should be supplementary reading for every grade. This should be used freely. Supplementary reading should be somewhat easier than the Reader in use, for it is to train pupils in sight reading and readiness to acquire thought from what is read.

Some other series of readers may be selected for supplementary reading. For the first year select some easier first reader or lesson papers. For the second year read some First Reader at sight, or a very easy Second Reader. For the third year a Second Reader, etc.—always being careful to get something not quite so difficult as the Reader in use.

GEOGRAPHY.

To be able to teach geography well requires a wide range of work on the part of the teacher. A knowledge of geography is of excellent service in much of school work in other branches, and the teacher must be well equipped if he means to do good work.

Teaching this branch properly does not consist in having pupils commit to memory the text and learn the bare facts contained in the book. Pupils may be helped very much by giving them supplementary work of various kinds. They will be pleased to hunt up outside information, upon any topic of this study, if they can have a little direction from the teacher as to where to seek, and how to collect.

Such work will increase interest, and that insures more work, and better work in less time. It will show to children that all of this great subject is not bound up within the lids of their small text-book. Let the teaching tend much toward a proper knowledge of the conditions of the earth as a home for man; as a place where his wants may be well supplied—as a place of life and activity.

Nothing that people use or produce is without its lesson in geography. Every article of commerce has its people, its country, its climate; and every production of our own land may find a market in some other quarter of the globe. Question where it goes and why. Such a field of geographical work is boundless, and is far better than cramming the memory with names of places and things which, of themselves, have no meaning.

First work in this branch should be oral, and should bear upon those features which come within the observation of the child. Directions of places, and their relative positions, and the meaning of boundaries should be made plain to pupils. Examples of many of the divisions of land and water can be found in every neighborhood, on a small scale, which may be used to explain representations on the maps, and thus lead up to map study with some degree of intelligence. Care should be taken to do this right, that the child may have correct ideas of map work.

In text-book work, pay attention to the plan of work and instructions given by the author, not to make them an absolute rule of work but a basis of operations. In using supplementary work, let the teacher use his best judgment—never forgetting the subject—from the standpoint of the pupil. The use of a good geographical reader will add much interest. Even a single copy on the teacher's desk, to be placed in the hands of the pupil who strives, by faithful work, to secure it for a short time as a reward for that faithfulness, will do very much good in awakening an interest. If pupils can make collections of short clippings from papers, about the places and countries of which they study, they will see that geography is really an every-day matter, always before them.

A review of geography, especially that of our own country, should be made in connection with history. The fact that these two topics are very intimately connected, and that each is very much aided by the other, should be kept before the pupils. Let geography be regarded as having very much to do with people, and not altogether with black dots called towns, crooked lines called rivers, and shaded patches called mountains.

ARITHMETIC.

FIRST YEAR.

The work in the first year should be carried on regularly and systematically. Let the work be progressive, commencing with objects. Teach combinations in addition and subtraction by means of the objects until the pupils can perform the operations quickly and accurately, then proceed with the same operations without the objects.

In teaching the pupils to make figures and Roman numerals, have them associate the character closely with the number it represents. The writing of numbers in this grade, need not be taught beyond the combinations which the pupils make.

SECOND AND THIRD YEARS.

For economy of time these grades may be placed together, but care should be taken not to force the pupils of the second year to do all the work passed over by the third year. Let the two grades combine, as far as possible, giving the third year more advanced and supplementary work. Drill thoroughly on the fundamental operations so that the pupils may attain rapidity and accuracy.

FOURTH AND FIFTH YEARS.

The same precaution should be taken in combining these and the succeeding grades as was given under the directions for the second and third years, viz.; not to expect the same work from the two. Omit the more difficult problems for the beginning grade, and supplement work for the advanced grade. Give ample drill in mental arithmetic.

SIXTH AND SEVENTH YEARS.

Study fractions thoroughly. Some of the more difficult cases in percentage should be omitted with the sixth year to be taken up in the seventh year. Teach one method of calculating interest until the pupil knows that well. In the eighth year the other methods of calculating interest may be taken up. Mental work should be continued throughout the whole course.

EIGHTH YEAR.

This grade is designed to review the more difficult portions passed over, and to take up any subjects previously omitted. Make the work in mensuration as practical as possible by performing actual measurements and computations and comparisons of lengths, volumes, areas, etc.

LANGUAGE AND GRAMMAR.

Some persons seem to have an erroneous idea regarding the study of language, and as a result consider the time spent in studying it as wasted. A little careful thought will lead any one to conclude that it is one of the most important subjects in the whole course. To be able to use good, clear, forcible English either in speaking or writing is certainly of great value to every one in any and all vocations in life.

That this power may be developed in the pupils of our public schools, either city or country, it is absolutely necessary that special and persistent training be given them from the day they enter the school until they leave it. In the primary classes pupils should be encouraged to talk about their lessons; the pictures contained in their books, and objects of interest all around them. They should be made to feel a perfect freedom at all times in this respect, and should be encouraged in every effort. In all grades the mistakes in language should be corrected in a kind, but direct manner, and correctness, and completeness of expression should be insisted upon by the teacher in all recitations. By making every recitation a lesson in the use of good English, pupils will be made to realize that the study of language and grammar is a practical one.

As soon as pupils can write they should be taught the simple rules of capitalization and punctuation so far as they relate to the correct manner of beginning and ending sentences. This is very important, and must be persisted in, if results worth anything are to follow. They should then be taught how to combine sentences into simple paragraphs in a neat and systematic manner. Composition writing should be a very important factor in the regular work of the school, and great care and nice judgment are necessary on the part of the teacher in the selection of suitable subjects. To ask a pupil to write about something of which he is entirely ignorant is unreasonable, and certain to develop a hatred for such work. There are numerous subjects suited to the various pupils, if the teacher will but take the pains to hunt them up, on which they can write in an interesting intelligent way and in so doing create a real love for the work.

Language work is very closely related to reading, and in many instances the reading of the pupil should be made the basis of his work in language.

All of the readers in use in the schools of Ohio, are filled with selections from some of the best authors, and, if properly taught, will be certain to awaken an interest in good literature which will lead the pupils to read it, and having read a few good books, they will have a solid foundation on which to build their language and composition work. Teachers and members of boards of education, should earnestly co-operate in placing in every school room, if possible, a few of the choice books which can be purchased now at such slight expense. While *technical grammar* should not be taught to the pupils of the lower grades, it certainly has its place in a course of study. The course of study proposed in this pamphlet provides that a text-book in elementary grammar shall be introduced into the sixth and seventh years of school (Fifth Reader class), and that a more advanced book be used in the eighth year, (U. S. History class). Of course, it is not intended that the more difficult parts of grammar shall be taken up in these years, but only such portions as can be comprehended by the pupils, and will be of the most practical use to them in the future. In teaching this subject, as well as all others, success will depend very largely upon the efforts of the teacher. It is especially important in teaching the correct use of language that teachers themselves use great care in their own language.

“Workman Law.”

AN ACT

To provide for the more efficient organization of the common schools in township districts.

SECTION 1. *Be it enacted by the General Assembly of the State of Ohio*, That sections 3915, 3916, 3917, 3920, 3922, 3927 (am. April 8, 1891), 3929, 3941a, 3961, 3978, 3981 (am. Feb. 26, 1891), 3987, 3989, 4014, 4017 (am. April 28, 1890), 4018 (am. March 6, 1890), 4019, 4032 and 4034 of the Revised Statutes of Ohio be amended so as to read as follows:

Sec. 3915. The board of education of each township district divided into subdistricts shall consist of the township clerk, and one director elected for a term of three years from each subdistrict. The clerk of the township shall be ex-officio the clerk of the board but shall have no vote except in cases of a tie.

Sec. 3916. There shall be elected by ballot on the second Monday of April, 1893, in each sub-district, by the qualified electors thereof, one competent person, having the qualifications of an elector therein, to be styled director. Those elected shall be divided upon the third Monday of April thereafter by lot, into three classes as nearly equal as possible; the directors of the first class shall serve for the term of one year, the directors of the second class for two years, and the directors of the third class for three years. All elections of directors thereafter shall be held on the second Monday of April, and all directors shall serve until their successors are elected and qualified. The office of local director in each subdistrict shall terminate after the first election and qualification of directors under this act.

Sec. 3917. The director of each subdistrict, where an election may occur, shall post written or printed notices in three or more conspicuous places in his subdistrict, at least six days prior to the day of election, designating the day and hour of opening, and the hour of closing the election; the election shall be held at the usual place of holding school meetings in the subdistrict; the meeting shall be organized by appointing a chairman and a secretary, who shall act as judges of the election under oath or affirmation, which oath or affirmation may be administered

by the director of the subdistrict, or any other person competent to administer such an oath or affirmation, and the secretary shall keep a poll-book and tally-sheet, which shall be signed by the judges, and delivered within five days to the clerk of the township. [77 v. 63.]

Sec. 3920. The board of education shall hold regular sessions on the third Monday of April, June, August, October, December and February, at the usual places of holding township elections, or at such place in the immediate vicinity thereof as may be convenient, for the transaction of business, and may adjourn from time to time, or hold special meetings at any other time or place within the township, as it deems desirable, for the transaction of business; which special meeting may be called by the township clerk, by the president of the board, or by two or more members of the board, but each member of the board must be duly notified thereof personally, or by written notice left at his residence or usual place of business. [70 v. 195, § 31; 86 v. 346.]

Sec. 3922. When the board consolidates two or more subdistricts into a new subdistrict, or establishes a new subdistrict in any other way, it shall call a special meeting of the qualified electors resident in the new subdistrict, for the purpose of electing one director for the same; at least five days before the time fixed for the meeting the board shall post, in three of the most public places in the new subdistrict, written or printed notices, stating time, place, and object of holding the meeting; the election shall be conducted as provided in this chapter, and a director shall be elected to serve the term, which will render the classes of directors most equal, from the annual meeting on the third Monday of April next preceding the organization of the new subdistrict; and the terms of office of the directors of subdistricts so consolidated shall expire at the time such new subdistrict is created. [75 v. 120, § 32.]

Sec. 3927. When a special district is abandoned there shall be an election of a director as provided in this chapter and for the term directed in section 3922. The clerk of the special or village district board shall deliver to the clerk of the township board all the books and papers of the special district in his custody, and notify the county auditor, in writing, of the abandonment of the organization of the district; the treasurer of the special or village district board shall deliver to the treasurer of the township board all the books, papers and money of the special or village district in his possession; the township board shall complete all unfinished business pertaining to the special or village district; any debt contracted by the special or village district board, shall be paid out of the money transferred to the treasurer of the township board, as herein provided, and out of the money arising from the taxes levied by the special or village district board; and if such funds are insufficient therefor, the remainder shall be paid by a special tax upon the property of the subdistrict so created.

Sec. 3929. The school in a joint subdistrict shall be under the control of the board of education in the township in which the school-house is situate, of which board the director of the joint subdistrict shall be a member; but such school shall be supported from the school funds of the townships having territory in the joint subdistrict, in proportion to the enumeration of youth, as provided in sections thirty-nine hundred and sixty-one and thirty-nine hundred and sixty-two.

Sec. 3941a. When in a joint subdistrict established by proceedings in the probate court, a site has been designated for a school-house, the board of education of the township in which such site is designated shall make the necessary estimate to purchase such school-house site, and erect and furnish a suitable school-house thereon; and said board shall report such estimate and levy to the county auditor; said levy shall be made and the money collected in like manner as the funds are levied and collected for other joint subdistricts.

Sec. 3961. For a joint subdistrict the estimate required by section thirty-nine hundred and fifty-eight shall be made by the board of education having control of the school thereof, and apportioned to the several townships having territory therein in proportion to the enumeration of youth in the territory belonging to each; the board shall certify such estimate, so apportioned, to the county auditor, who shall add the portion for each township to the estimate for a contingent fund certified to him by its board of education, and place it on the tax list therewith for collection as part of the township estimate; when the county auditor apportions the school funds he shall transfer to the township having control of the school, from the other townships, the amounts so assessed and collected, and certify to the clerk and treasurer of each township the amount due the board in control of said school, including state tax, interest on the common school fund, contingent fund, and money received from other sources, which amount shall be paid to the treasurer of the board having control of the school; and such board shall cause to be kept such accounts as will show the funds received from each township, and the disposition thereof, and transmit to the other board or boards interested, at the end of the school year, a statement of such receipts and expenditures. [75 v. 84, § 35.]

Sec. 3978. In all cases of tie votes at an election for members of a board of education, the judges of election shall decide the election by lot; and in other cases of failure to elect members of the board, or in case of a refusal to serve, the board shall appoint. [70 v. 195, § 43.]

Sec. 3981. Vacancies in any board of education, arising from death, non-residence, resignation, expulsion for gross neglect of duty, failure of a person elected or appointed to qualify within ten days after the annual organization or after his appointment, or from other cause, which occur more than fifteen days before the next annual election, the board shall fill within ten days from the occurrence of the vacancy, until the next annual

election, when a successor shall be elected to fill the unexpired term; provided such vacancy in township board may be filled at the next regular meeting as prescribed in section 3920.

Sec. 3987. The board of education of any district is empowered to build, enlarge, repair and furnish the necessary school-houses, purchase or lease sites therefor, or rights of way thereto, or rent suitable school-rooms, provide all the necessary apparatus and make all other necessary provisions for the schools under its control; also, the board shall provide fuel for schools, build and keep in good repair all fences inclosing such school-houses, plant when deemed desirable shade and ornamental trees on the school-grounds, and make all other provisions necessary for the convenience and prosperity of the schools within the subdistricts.

Sec. 3989. When it becomes [necessary] to rebuild the school-house of a joint subdistrict, or for the better accommodation of scholars, to change the school-house site and erect a new building thereon, the question of such rebuilding, or of such change of site and erection of a new building, shall be determined by a majority vote of the township board of education in which the school-house is situate, and in such manner as to secure the better accommodation of a majority of scholars in the same; any funds which may be or have been assessed and collected for the building of such school-house shall be transferred to the custody of the board of education of the township in which the new building is to be erected, which board shall proceed in all matters connected with the erection of the building in accordance with the provisions of this chapter; and if the location is changed to another township, the personal property belonging to such subdistrict shall be transferred to the board of education of such township; and any real property belonging thereto, and situated in the township from which the location is changed, shall be sold by the board of education of such township, and the proceeds of the sale transferred to the board of education of the township to which the location is changed. [72 v. 63, § 36.]

Sec. 4014. No pupil shall be suspended from school by a superintendent or teacher except for such time as may be necessary to convene the board of education, and no pupil shall be expelled except by a vote of two-thirds of such board, and not until the parent or guardian of the offending pupil has been notified of the proposed expulsion, and permitted to be heard against the same; and no pupil shall be suspended or expelled from any school beyond the current term thereof. [70 v. 195, § 71.]

Sec. 407. Each board of education shall have management and control of the public schools of the district with full power to a point a superintendent and assistant superintendents of the schools, a superintendent of buildings and teachers, janitors and other employees, and fix their salaries or pay, which salaries or pay may be increased but shall not be diminished during the term for which the appointment is made; but no person shall be appointed for a longer time than that for which a

memb r of the boa d is elected; a d such board may dismiss any appointee or inefficiency, neglect of duty, immorality, or improper conduct

Sec. 4018. It shall be unlawful for the township board of education prior to the annual election on the second Monday of April and the qualification of the director or directors elected thereat to employ or contract to employ any teacher for a term to commence after the expiration of the current school year; and said board at the end of any month, or at the end of the term, shall give to the teachers employed by them certificates of such employment and of services rendered, addressed to the township clerk, who, upon presentation thereof, and compliance by such teachers with the provisions of section forty hundred and fifty-one, shall draw orders on the township treasurer for the amounts certified to be due, in favor of the parties entitled thereto, and the treasurer shall pay the same.

Sec. 4019. If the board of education of any district dismiss any teacher for any frivolous or insufficient reason, such teacher may bring suit against such district, and if, on the trial of the cause, a judgment be obtained against the district, the board thereof shall direct the clerk to issue an order upon the township treasurer for the sum so found due to the person entitled thereto, to pay the same out of any money in his hands belonging to such district, and applicable to the payment of teachers; and in such suits process may be served on the clerk of the district, and service upon him shall be sufficient. [76 v. 58, § 1.]

Sec. 4032. The director of each subdistrict shall take the enumeration of his subdistrict and return the same to the clerk of the board of education in the manner prescribed in this chapter.

Sec. 4034. The enumeration of a joint subdistrict shall be taken by the director of the joint subdistrict in which the school-house of the subdistrict is situate. He shall designate in his report to the clerk the number of youth residing in the respective fractions of townships of which the subdistrict is composed; and the clerk, if such subdistrict is composed of parts of two or more counties, shall transmit a certified copy thereof to the auditor of each county having territory within the subdistrict. [70 v. 195 § 34; 71 v. 15, § 77; 72 v. 63, § 36.]

SECTION 2. All of said original sections of the Revised Statutes, together with the amendments heretofore made thereto and amended by this act, are hereby repealed; also sections 391, 3919, 3949, 4033, and all acts or parts of acts, and all sections or parts of sections in conflict with the provisions of this act, are, to the extent of such conflict, hereby repealed; provided, that township districts organized as village districts, or that may hereafter organize as such, remain, and the boards thereof retain the powers and duties as now conferred by the Revised Statutes of the state.

SECTION 3. This act shall take effect and be in force from and after April 1st, 1893.

LEWIS C. LAYLIN,

Speaker of the House of Representatives.

ANDREW L. HARRIS,

President of the Senate.

Passed March 15, 1892.

[House Bill No. 1,433.]

A BILL

To compel the elementary education of children.

SECTION 1. *Be it enacted by the General Assembly of the State of Ohio,* That all parents, guardians and other persons who have care of children, shall instruct them, or cause them to be instructed, in reading, spelling, writing, English grammar, geography and arithmetic. Every parent, guardian or other person having charge of any child between the ages of eight and fourteen years, shall send such child to a public, private or parochial school, for the following period: In city districts, in each school year beginning September first, not less than twenty weeks, at least ten weeks of which, commencing within the first four weeks of the school year, shall be consecutive; and in special, village and township districts, not less than sixteen weeks in each school year, eight of which, commencing within the first four weeks of the school year, shall be consecutive, unless the child is excused from such attendance by the superintendent of the public schools in city or other districts having such superintendent, or by the clerk of the board of education in village, special and township districts not having such superintendent, or by the principal of the private or parochial school, upon a satisfactory showing, either that the bodily or mental condition of the child does not permit of its attendance at school, or that the child is being instructed at home by a person qualified, in the opinion of the superintendent of schools in city or other districts having such superintendent, or the clerk of the board of education in special, village and township districts not having such superintendent, to teach the branches named in this section. In case such superintendent, principal or clerk refuse to excuse a child from attendance on school, an appeal may be taken from such decision to the probate judge of the county, upon the giving of a bond, within ten days after such refusal, to the approval of said judge, to pay all the costs of the appeal, and the decision of the probate judge in the matter shall be final. All children between the ages of eight and sixteen years, not engaged in some regular employment, shall attend school for the full term

the schools of the district in which they reside are in session during the school year, unless excused for the reasons above named.

SECTION 2. No child under the age of fourteen years shall be employed by any person, company or corporation during the school term, and while the public schools are in session, unless the parent, guardian or person in care of such child, shall have fully complied with the requirements of section one of this act. Every person, company or corporation shall require proof of such compliance before employing any such minor, and shall make and keep a written record of the proof given, and shall, upon the request of the truant officer hereinafter provided for, permit him to examine such record, and also the record provided for by section 6986~~aa~~ of the Revised Statutes. Any person, company or corporation employing any child contrary to the provisions of this section, shall be fined not less than twenty-five nor more than fifty dollars.

SECTION 3. All minors over the age of fourteen and under the age of sixteen years, who cannot read and write the English language, shall attend school at least one-half of each day, or attend a public night school, or take regular private instruction from some person qualified, in the opinion of the superintendent of schools in city or other districts having such superintendent, or by the clerk of the board of education in village, special and township districts not having such superintendent, to teach such branches, until such minor obtain a certificate from such superintendent or clerk, that he or she can read at sight and write legibly simple sentences in the English language. Every person, company or corporation employing, or having in employment any such minor, shall exact the school attendance or instruction required by this section, as a condition of employment, and shall, on request of the truant officer hereinafter provided for, furnish evidence that such minor is complying with the requirements of this section. Every person, company or corporation which employs, or has in employment, any such minor without exacting the school attendance or instruction required by this section, or employs or has in employment any such minor who is not complying with the requirements of this section shall be fined not less than twenty-five nor more than fifty dollars. Provided, any employer may, with the approval of the superintendent or clerk above mentioned, make provision for the private instruction of such minors in his employ.

SECTION 4. Every child between the ages of eight and fourteen years, and every child between the ages of fourteen and sixteen years unable to read and write the English language, or not engaged in some regular employment, who is an habitual truant from school, or who absents itself habitually from school, or who, while in attendance at any public, private or parochial school, is incorrigible, vicious or immoral in conduct, or who habitually wanders about the streets and public places during school hours having no business or lawful occupation, shall be

deemed a juvenile disorderly person, and be subject to the provisions of this act.

SECTION 5. To aid in the enforcement of this act, truant officers shall be appointed and employed as follows: In city districts the board of education shall appoint and employ one or more truant officers; in special, village and township districts the board of education shall appoint a constable or other person as truant officer. The compensation of the truant officer shall be fixed by the board appointing him. The truant officer shall be vested with police powers, and shall have authority to enter workshops, factories, stores, and all other places where children may be employed, and do whatever may be necessary, in the way of investigation or otherwise, to enforce this act. The truant officer shall institute proceedings against any officer, parent, guardian, person or corporation violating any provisions of this act, and shall otherwise discharge the duties prescribed in this act, and perform such other services as the superintendent of schools or the board of education may deem necessary to preserve the morals and secure the good conduct of school children, and to enforce this act. The truant officer shall keep a record of his transactions for the inspection and information of the superintendent of the schools and the board of education; and he shall make daily reports to the superintendent of schools during the school term in cities, and to the clerk of the board of education, as often as required by him, in special, village and township districts. Suitable blanks for the use of the truant officer shall be provided by the clerk of the board of education.

SECTION 6. It shall be the duty of all principals and teachers of all schools, public, private and parochial, to report to the clerk of the board of education of the city, special, village or township district in which the schools are situated, the names, ages and residence of all pupils in attendance at their schools, together with such other facts as said clerk may require, in order to facilitate the carrying out of the provisions of this act; and the clerk shall furnish blanks for such purpose, and such report shall be made in the last week of September, December, February and April of each year. It shall be the further duty of such principals and teachers to report to the truant officer, the superintendent of public schools, or the clerk of the board of education, all cases of truancy or incorrigibility in their respective schools as soon after these offenses have been committed as practicable.

SECTION 7. On the request of the superintendent of schools or the board of education, or when it otherwise comes to his notice, the truant officer shall examine into any case of truancy within his district, and warn the truant and its parents, guardian or other person in charge, in writing, of the final consequences of truancy if persisted in. When any child between the ages of eight and fourteen years, or any child between the ages of fourteen and sixteen years who can not read and write the

English language or is not engaged in some regular employment, or any child between the ages of fourteen and sixteen years who has been discharged from employment to obtain instruction or schooling, is not attending school without lawful excuse and in violation of the provisions of this act, the truant officer shall notify the parent, guardian or other person in charge of such child, of that fact, and require such parent, guardian or other person in charge, to cause the child to attend some recognized school within five days from the date of the notice; and it shall be the duty of the parent, guardian or other person in charge of the child, so to cause its attendance at some recognized school. Upon failure to do so, the truant officer shall make complaint against the parent, guardian or other person in charge of the child, in any court of competent jurisdiction in the city, special, village or township district in which the offense occurs, for such failure, and upon conviction, the parent, guardian or other person in charge, shall be fined not less than five dollars nor more than twenty dollars, or the court may, in its discretion, require the person so convicted to give a bond in the penal sum of one hundred dollars, with sureties to the approval of the court, conditioned that he or she will cause the child under his or her charge to attend some recognized school within five days thereafter, and to remain at such school during the term prescribed by law. And upon the failure or refusal of any such parent, guardian or other person to pay said fine or furnish said bond according to the order of the court, then said parent, guardian or other person shall be imprisoned in the county jail not less than ten days nor more than thirty days.

SECTION 8. If the parent, guardian or other person in charge of any child shall, upon the complaint under the last section for a failure to cause the child to attend a recognized school, prove inability to do so, then he or she shall be discharged, and thereupon the truant officer shall make complaint that the chlld is a juvenile disorderly person within the meaning of section 4 of this act. If such complaint be made before any mayor or justice of the peace, it shall be certified by such magistrate to the probate judge. The probate judge shall hear such complaint, and if he determine that the child is a juvenile disorderly person within the meaning of section 4 hereof, he shall commit the child, if under ten years of age, and eligible for admission thereto, to a children's home, or if not eligible, then to a house of refuge if there be one in the county, or to the boys' industrial school or the girls' industrial home, or to some other juvenile reformatory. No child over ten years of age shall be committed to a county children's home, and any child committed to a children's home, may, on request of the trustees of such home, and it being shown that it is vicious and incorrigible, be transferred by the probate judge to the boys' industrial school or the girls' industrial home. A child committed to any juvenile reformatory under this section, shall not be detained there beyond the age of sixteen years and may be discharged sooner by the

trustees under the restrictions applicable to other inmates. Any order of commitment to a juvenile reformatory may be suspended, in the discretion of the probate judge, for such time as the child may regularly attend school and properly conduct itself. The expense incurred in the transportation of a child to a juvenile reformatory and the costs in the case in which the order of commitment is made, shall be paid by the county from which the child is committed, after the manner provided in section 759 of the Revised Statutes. Provided, further, that if for any cause the parent, guardian or other person in charge of any juvenile disorderly person as defined in section 4 hereof, shall fail to cause such juvenile disorderly person to attend school, then complaint against such juvenile disorderly person shall be made, heard and determined in like manner as provided in case the parent proves inability to cause such juvenile disorderly person to attend school.

SECTION 9. When any truant officer is satisfied that any child, compelled to attend school by the provisions of this act, is unable to attend school because absolutely required to work, at home or elsewhere, in order to support itself or help support or care for others legally entitled to its services, who are unable to support or care for themselves, the truant officer shall report the case to the authorities charged with the relief of the poor, who shall thereupon, if the case be a meritorious one, afford such relief as will enable the child to attend school the time each year required under this act. Such child shall not be considered or declared a pauper by reason of the acceptance of the relief herein provided for. In case the child or its parents or guardian refuse or neglect to take advantage of provisions thus made for its instruction, such child may be committed to a children's home or a juvenile reformatory, as provided in section 8 hereof. Boards of education, in urgent and deserving cases where no other relief is available, and where neither parents nor child are at fault, may make suitable temporary arrangements for the instruction of the child, described in this section, either at home or at school, and for such purpose may incur necessary expense to be paid out of the school funds of the district.

SECTION 10. The provisions of this act shall apply to children entitled, under existing statutes, to attend school at the institution for the deaf and dumb, or the institution for the blind, so far as the same are properly enforceable. Truant officers shall, within sixty days after the passage of this act, and annually between the first day of July and the first day of August, report to the probate judges of their respective counties the names, ages and residence of all such children between the ages of eight and eighteen years, with the name and post-office address of their parents, guardians or the persons in charge of them; also a statement whether the parents, guardian or person in charge of each child is able to educate and is educating the child, or whether the interests of the child will be promoted by sending it to one of the state institutions mentioned.

Upon information thus or otherwise obtained, the probate judge may fix a time when he will hear the question whether any such child shall be required to be sent for instruction to one of the state institutions mentioned, and he shall thereupon issue a warrant to the proper truant officer or some other suitable person, to bring the child before such judge at his office at the time fixed for the hearing; and shall also issue an order on the parents, guardian or person in charge of the child, to appear before him at such hearing, a copy of which order, in writing, shall be served personally on the proper person by the truant officer or other person ordered to bring the child before the judge. If, on the hearing, the probate judge is satisfied the child is not being properly educated at home, and will be benefited by attendance at one of the state institutions mentioned, and is a suitable person to receive instruction therein, he may send or commit such child to such institution. The cost of such hearing, and the transportation of the child to such institution shall be paid by the county after the manner provided, where a child is committed to a state reformatory under section 8 hereof; provided, nothing in this section contained shall be construed to require the trustees of either of the state institutions mentioned, to receive any child not a suitable subject to be received and instructed therein under the laws, rules and regulations governing such institutions.

SECTION 11. Any officer, principal, teacher or person mentioned in this act, neglecting to perform any duty imposed upon him by this act, shall be fined not less than twenty-five dollars nor more than fifty dollars for each offense. Any officer or agent of any corporation violating any provision of this act, who participates or acquiesces in or is cognizant of such violation, shall be fined not less than twenty-five dollars nor more than fifty dollars. Any person who violates any provision of this act for which a penalty is not elsewhere in this act provided, shall be fined not more than fifty dollars. Mayors, justices of the peace, and probate judges shall have jurisdiction to try the offenses described in this act, and their judgment shall be final. When complaint is made, information filed, or indictment found against any corporation for violating this act, summons shall be served, appearance made or plea entered, as provided in section 7231, Revised Statutes, except that in complaints before magistrates, service shall be made by the constable. In every case of complaint against a child involving commitment to any children's home or juvenile reformatory, the board of county visitors shall be notified and must attend and protect the interests of the child on the hearing, as provided in the act of March 29, 1892 (O. L., 160); and the order of commitment of the child to a state reformatory must show that the county visitors were so notified and attended the hearing.

SECTION 12. Every person who, after being once convicted for violating any of the provisions of this act, shall be convicted of again violating any of the provisions of this act, may, in addition to the punishment by way of a fine elsewhere provided for, be imprisoned not less than ten

days nor more than thirty days. On complaint, before a mayor or justice of the peace, of a second violation of this act involving the punishment of imprisonment, if a trial by jury be not waived, a jury shall be chosen and the case tried, after the manner provided in section 3718a Revised Statutes.

SECTION 13. This law shall not be operative in any school district where there are not sufficient accommodations in the public schools to seat children compelled to attend the public schools under the provisions of this act. It is hereby made the duty of every board of education in this state to provide sufficient accommodations in the public schools for all children in their district compelled to attend the public schools under the provisions of this act. Authority to levy the tax and raise the money necessary for such purpose, is hereby given the proper officers charged with such duty under the law.

SECTION 14. It shall be the duty of the state commissioner of common schools, within sixty days after the passage of this act, and from time to time thereafter whenever he may deem it advisable, to formulate and forward to the boards of education throughout the state, regulations and suggestions for the instruction and guidance of all boards, officers, superintendents, principals, teachers, and persons charged with the enforcement of this act, or any of its provisions.

SECTION 15. An act entitled "An act to compel children under fourteen years of age to attend school a certain length of time each year," passed April 15, 1889 (86 O. L., 333), and all acts amending the same or any section thereof, are hereby repealed. Any provision of any law now in force which conflicts with any provision of this act, shall, to the extent of such conflict and inconsistency, but not otherwise, be held to be superseded by the provisions of this act.

SECTION 16. This act shall take effect and be in force from and after its passage.

ELVERTON J. CLAPP,

Speaker pro tem. of the House of Representatives.

ANDREW L. HARRIS,

President of the Senate.

Passed April 25, 1893.

Constitution of Ohio, of 1851.

PREAMBLE.

We the people of the State of Ohio, grateful to Almighty God for our freedom, to secure its blessings and promote our common welfare, do establish this Constitution.

ARTICLE I.

BILL OF RIGHTS.

SECTION 1. All men are, by nature, free and independent, and have certain inalienable rights, among which are those of enjoying and defending life and liberty, acquiring, possessing and protecting property, and seeking and obtaining happiness and safety.

SEC. 2. All political power is inherent in the people. Government is instituted for their equal protection and benefit, and they have the right to alter, reform, or abolish the same, whenever they may deem it necessary; and no special privileges or immunities shall ever be granted, that may not be altered, revoked, or repealed by the general assembly.

SEC. 3. The people have the right to assemble together, in a peaceable manner, to consult for their common good; to instruct their representatives; and to petition the general assembly for the redress of grievances.

SEC. 4. The people have the right to bear arms for their defense and security; but standing armies in time of peace, are dangerous to liberty, and shall not be kept up; and the military shall be in strict subordination to the civil power.

SEC. 5. The right of trial by jury shall be inviolate.

SEC. 6. There shall be no slavery in this state, nor involuntary servitude, unless for the punishment of crime.

SEC. 7. All men have a natural and indefeasible right to worship Almighty God according to the dictates of their own conscience. No person shall be compelled to attend, erect, or support any place of worship, or maintain any form of worship, against his consent; and no preference shall be given, by law, to any religious society; nor shall any interference with the rights of conscience be permitted. No religious test shall be required as a qualification for office, nor shall any person be incompetent to be a witness on account of his religious belief; but nothing herein shall be construed to dispense with oaths and affirmations. Religion, morality, and knowledge, however, being essential to good government it shall be the duty of the general assembly to pass suitable laws to protect every religious denomination in the peaceable enjoyment of its own mode of public worship, and to encourage schools and the means of instruction.

SEC. 8. The privilege of the writ of habeas corpus shall not be suspended, unless in cases of rebellion or invasion, the public safety require it.

SEC. 9. All persons shall be bailable by sufficient sureties, except for capital offenses where the proof is evident, or the presumption great. Excessive bail shall not be required; nor excessive fines imposed; nor cruel and unusual punishments inflicted.

SEC. 10. Except in cases of impeachment, and cases arising in the army and navy, or in the militia when in actual service in time of war or public danger, and in cases of petit larceny and other inferior offenses, no person shall be held to answer for a capital, or otherwise infamous, crime, unless on presentment or indictment of a grand jury. In any trial, in any court, the party accused shall be allowed to appear and defend in person and with counsel; to demand the nature and cause of the accusation against him, and to have a copy thereof; to meet the witnesses face to face, and to have compulsory process to procure the attendance of witnesses in his behalf, and a speedy public trial by an impartial jury of the county or district in which the offense is alleged to have been committed; nor shall any person be compelled, in any criminal case, to be a witness against himself, or be twice put in jeopardy for the same offense.

SEC. 11. Every citizen may freely speak, write and publish his sentiments on all subjects, being responsible for the abuse of the right; and no law shall be passed to restrain or abridge the liberty of speech, or of the press. In all criminal prosecutions for libel, the truth may be given in evidence to the jury, and if it shall appear to the jury that the matter charged as libelous is true, and was published with good motives, and for justifiable ends, the party shall be acquitted.

SEC. 12. No person shall be transported out of the state for any offense committed within the same; and no conviction shall work corruption of blood, or forfeiture of estate.

SEC. 13. No soldier shall, in time of peace, be quartered in any house, without the consent of the owner; nor, in time of war, except in the manner prescribed by law.

SEC. 14. The right of the people to be secure in their persons, houses, papers, and possessions, against unreasonable searches and seizures shall not be violated; and no warrant shall issue, but upon probable cause, supported by oath or affirmation, particularly describing the place to be searched and the person and things to be seized.

SEC. 15. No person shall be imprisoned for debt in any civil action, or mesne or final process, unless in cases of fraud.

SEC. 16. All courts shall be open, and every person, for an injury done him in his land, goods, person, or reputation, shall have remedy by due course of law; and justice administered without denial or delay.

SEC. 17. No hereditary emoluments, honors, or privileges, shall ever be granted or conferred by this state.

SEC. 18. No power of suspending laws shall ever be exercised, except by the general assembly.

SEC. 19. Private property shall ever be held inviolate, but subservient to the public welfare. When taken in time of war or other public exigency, imperatively requiring its immediate seizure or for the purpose of making or repairing roads, which shall be open to the public, without charge, a compensation shall be made to the owner, in money, and in all other cases, where private property shall be taken for public use, a compensation therefor shall first be made in money, or first secured by a deposit of money, and such compensation shall be assessed by a jury, without deduction for benefits to any property of the owner.

SEC. 20. This enumeration of rights shall not be construed to impair or deny others retained by the people; and all powers, not herein delegated, remain with the people.

ARTICLE II.

LEGISLATIVE.

SECTION 1. The legislative power of this state shall be vested in a general assembly, which shall consist of a senate and house of representatives.

SEC. 2. Senators and representatives shall be elected biennially by the electors of the respective counties or districts, on the first Tuesday after the first Monday in November; their term of office shall commence on the first day of January next thereafter, and continue two years. [As amended October 13, 1885; 82 v. 446.]

SEC. 3. Senators and representatives shall have resided in their respective counties or districts, one year next preceding their election, unless they shall have been absent on the public business of the United States or of this state.

SEC. 4. No person holding office under the authority of the United States, or any lucrative office under the authority of this state, shall be eligible to or have a seat in the general assembly; but this provision shall not extend to township officers, justices of the peace, notaries public, or officers of the militia.

SEC. 5. No person hereafter convicted of an embezzlement of the public funds shall hold any office in this state; nor shall any person holding public money for distribution or otherwise, have a seat in the general assembly until he shall have accounted for and paid such money into the treasury.

SEC. 6. Each house shall be judge of the election, returns, and qualifications of its own members; a majority of all the members elected to each house shall be a quorum to do business; but a less number may adjourn from day to day, and compel the attendance of absent members, in such manner and under such penalties as shall be prescribed by law.

SEC. 7. The mode of organizing the house of representatives, at the commencement of each regular session, shall be prescribed by law.

SEC. 8. Each house, except as otherwise provided in this constitution, shall choose its own officers, may determine its own rules of proceeding, punish its members for disorderly conduct; and with the concurrence of two-thirds expel a member, but not the second time for the same cause; and shall have all other powers necessary to provide for its safety, and the undisturbed transaction of its business.

SEC. 9. Each house shall keep a correct journal of its proceedings, which shall be published. At the desire of any two members, the yeas and nays shall be entered upon the journal; and, on the passage of every bill, in either house, the vote shall be taken by yeas and nays, and entered upon the journal; and no law shall be passed in either house without the concurrence of a majority of all the members elected thereto.

SEC. 10. Any member of either house shall have the right to protest against any act or resolution thereof; and such protest, and the reasons therefor, shall, without alteration, commitment, or delay, be entered upon the journal.

SEC. 11. All vacancies which may happen in either house shall, for the unexpired term, be filled by election, as shall be directed by law.

SEC. 12. Senators and representatives, during the session of the general assembly, and in going to and returning from the same, shall be privileged from arrest in all cases except treason, felony, or breach of the peace; and for any speech or debate, in either house, they shall not be questioned elsewhere.

SEC. 13. The proceedings of both houses shall be public, except in cases which, in the opinion of two-thirds of those present, require secrecy.

SEC. 14. Neither house shall, without the consent of the other, adjourn for more than two days, Sundays excluded; nor to any other place than that in which the two houses shall be in session.

SEC. 15. Bills may originate in either house; but may be altered, amended, or rejected in the other.

SEC. 16. Every bill shall be fully and distinctly read on three different days; unless, in case of urgency, three-fourths of the house in which it shall be pending, shall dispense with this rule. No bill shall contain more than one subject, which

shall be clearly expressed in its title, and no law shall be revived or amended unless the new act contain the entire act revived, or the section or sections amended, and the section or sections so amended shall be repealed.

SEC. 17. The presiding officer of each house shall sign publicly, in the presence of the house over which he presides, while the same is in session, and capable of transacting business, all bills and joint resolutions passed by the general assembly.

SEC. 18. The style of the laws of this state shall be, "*Be it enacted by the General Assembly of the State of Ohio.*"

SEC. 19. No senator or representative shall, during the term for which he shall have been elected, or for one year thereafter, be appointed to any civil office under this state which shall be created or the emoluments of which shall have been increased during the term for which he shall have been elected.

SEC. 20. The general assembly in cases not provided for in this constitution, shall fix the term of office and the compensation of all officers; but no change therein shall affect the salary of any officer during his existing term, unless the office be abolished.

SEC. 21. The general assembly shall determine, by law, before what authority, and in what manner, the trial of contested elections shall be conducted.

SEC. 22. No money shall be drawn from the treasury, except in pursuance of a specific appropriation, made by law; and no appropriation shall be made for a longer period than two years.

SEC. 23. The house of representatives shall have the sole power of impeachment, but a majority of the members elected must concur therein. Impeachments shall be tried by the senate; and the senators when sitting for that purpose, shall be upon oath or affirmation to do justice according to law and evidence. No person shall be convicted without the concurrence of two-thirds of the senators.

SEC. 24. The governor, judges, and all state officers may be impeached for any misdemeanor in office; but judgment shall not extend further than removal from office, and disqualification to hold any office, under the authority of this state. The party impeached, whether convicted or not, shall be liable to indictment, trial and judgment, according to law.

SEC. 25. All regular sessions of the general assembly shall commence on the first Monday of January biennially.

SEC. 26. All laws, of a general nature, shall have a uniform operation throughout the state; nor shall any act, except such as relates to public schools, be passed, to take effect upon the approval of any other authority than the general assembly, except as otherwise provided in this constitution.

SEC. 27. The election and appointment of all officers, and the filling of all vacancies not otherwise provided for by this constitution, or the constitution of the United States shall be made in such manner as may be directed by law, but no appointing power shall be exercised by the general assembly, except as prescribed in this constitution, and in the election of United States senators; and in these cases the vote shall be taken "*viva voce.*"

SEC. 28. The general assembly shall have no power to pass retroactive laws, or laws impairing the obligation of contracts; but may, by general laws, authorize courts to carry into effect, upon such terms as shall be just and equitable, the manifest intention of parties and officers, by curing omissions, defects and errors in instruments and proceedings arising out of their want of conformity with the laws of this state.

SEC. 29. No extra compensation shall be made to any officer, public agent, or contractor after the service shall have been rendered or the contract entered into; nor shall any money be paid, on any claim, the subject matter of which shall not have been provided for by pre-existing law, unless such compensation or claim be allowed by two-thirds of the members elected to each branch of the general assembly.

SEC. 30. No new county shall contain less than four hundred square miles of territory, nor shall any county be reduced below that amount; and all laws creating new counties, changing county lines, or removing county seats, shall, before taking effect, be submitted to the electors of the several counties to be affected thereby, at the next general election after the passage thereof, and be adopted by a majority of all the electors voting at such election, in each of said counties; but any county now or hereafter containing one hundred thousand inhabitants, may be divided whenever a majority of the voters residing in each of the proposed divisions shall approve of the law passed for that purpose; but no town or city within the same shall be divided, nor shall either of the divisions contain less than twenty thousand inhabitants.

SEC. 31. The members and officers of the general assembly shall receive a fixed compensation, to be prescribed by law, and no other allowance or perquisites, either in the payment of postage or otherwise; and no change in their compensation shall take effect during their term of office.

SEC. 32. The general assembly shall grant no divorce, nor exercise any judicial power not herein expressly conferred.

ARTICLE III.

EXECUTIVE.

SECTION 1. The executive department shall consist of a governor, lieutenant-governor, secretary of state, auditor of state, treasurer of state, and an attorney-general, who shall be elected on the first Tuesday after the first Monday in November, by the electors of the state, and at the places of voting for members of the general assembly. [As amended October 18, 1885; 82 v. 446.]

SEC. 2. The governor, lieutenant-governor, secretary of state, treasurer, and attorney-general shall hold their offices for two years, and the auditor for four years. Their terms of office shall commence on the second Monday of January next after their election, and continue until their successors are elected and qualified.

SEC. 3. The returns of every election for the officers named in the foregoing section shall be sealed up and transmitted to the seat of government, by the returning officers, directed to the president of the senate, who, during the first week of the session, shall open and publish them, and declare the result, in the presence of a majority of the members of each house of the general assembly. The person having the highest number of votes shall be declared duly elected; but if any two or more shall be highest, and equal in votes for the same office, one of them shall be chosen by the joint vote of both houses.

SEC. 4. Should there be no session of the general assembly in January next after an election for any of the officers aforesaid, the returns of such election shall be made to the secretary of state, and opened and the result declared by the governor, in such manner as may be provided by law.

SEC. 5. The supreme executive power of this state shall be vested in the governor.

SEC. 6. He may require information, in writing, from the officers in the executive department, upon any subject relating to the duties of their respective offices; and shall see that the laws are faithfully executed.

SEC. 7. He shall communicate at every session, by message, to the general assembly, the condition of the state, and recommend such measures as he shall deem expedient.

SEC. 8. He may, on extraordinary occasions, convene the general assembly by proclamation, and shall state to both houses, when assembled, the purpose for which they have been convened.

SEC. 9. In case of a disagreement between the two houses in respect to the time of adjournment, he shall have power to adjourn the general assembly to such time as he may think proper, but not beyond the regular meetings thereof.

SEC. 10. He shall be commander-in-chief of the military and naval forces of the state, except when they shall be called into the service of the United States.

SEC. 11. He shall have power, after conviction, to grant reprieves, commutations, and pardons, for all crimes and offenses, except treason and cases of impeachment, upon such conditions as he may think proper; subject, however, to such regulations, as to the manner of applying for pardons, as may be prescribed by law. Upon conviction for treason he may suspend the execution of the sentence and report the case to the general assembly, at its next meeting, when the general assembly shall either pardon, commute the sentence, direct its execution, or grant a further reprieve. He shall communicate to the general assembly, at every regular session, each case of reprieve, commutation, or pardon, granted, stating the name and crime of the convict, the sentence, its date, and the date of the commutation; pardon, or reprieve, with his reasons therefor.

SEC. 12. There shall be a seal of the state, which shall be kept by the governor, and used by him officially; and shall be called "The Great Seal of the State of Ohio."

SEC. 13. All grants and commissions shall be issued in the name and by the authority of the state of Ohio; sealed with the great seal; signed by the governor, and countersigned by the secretary of state.

SEC. 14. No member of congress, or other person holding office under the authority of this state, or of the United States, shall execute the office of governor, except as herein provided.

SEC. 15. In case of the death, impeachment, resignation, removal, or other disability of the governor, the powers and duties of the office, for the residue of the term, or until he shall be acquitted, or the disability removed, shall devolve upon the lieutenant-governor.

SEC. 16. The lieutenant-governor shall be president of the senate, but shall vote only when the senate is equally divided; and in case of his absence or impeachment, or when he shall exercise the office of governor, the senate shall choose a president *pro tempore*.

SEC. 17. If the lieutenant-governor, while executing the office of governor, shall be impeached, displaced, resign or die, or otherwise become incapable of performing the duties of the office, the president of the senate shall act as governor until the vacancy is filled, or the disability removed; and if the president of the senate, for any of the above causes, shall be rendered incapable of performing the duties pertaining to the office of governor, the same shall devolve upon the speaker of the house of representatives.

SEC. 18. Should the office of auditor, treasurer, secretary, or attorney-general, become vacant, for any of the causes specified in the fifteenth section of this article, the governor shall fill the vacancy until the disability is removed, or a successor elected and qualified. Every such vacancy shall be filled by election, at the first general election that occurs more than thirty days after it shall have happened; and the person chosen shall hold the office for the full term fixed in the second section of this article.

SEC. 19. The officers mentioned in this article shall, at stated times, receive for their services, a compensation to be established by law, which shall neither be increased nor diminished during the period for which they shall have been elected.

SEC. 20. The officers of the executive department and of the public state institutions shall, at least five days preceding each regular session of the general assembly, severally report to the governor, who shall transmit such reports, with his message, to the general assembly.

ARTICLE IV.

JUDICIAL.

SECTION 1. The judicial power of the state is vested in a supreme court, circuit courts, courts of common pleas, courts of probate, justices of the peace, and such other courts inferior to the supreme court, as the general assembly may, from time to time, establish. [As amended October 9, 1883; 80 v. 382.]

SEC. 2. The supreme court shall, until otherwise provided by law, consist of five judges, a majority of whom competent to sit shall be necessary to form a quorum or to pronounce a decision, except as hereinafter provided. It shall have original jurisdiction in quo warranto, mandamus, habeas corpus and procedendo, and such appellate jurisdiction as may be provided by law. It shall hold at least one term in each year at the seat of government, and such other terms, there or elsewhere, as may be provided by law. The judges of the supreme court shall be elected by the electors of the state at large, for such term, not less than five years, as the general assembly may prescribe, and they shall be elected and their official term shall begin at such time as may be fixed by law. In case the general assembly shall increase the number of such judges, the first term of each of such additional judges shall be such, that in each year after their first election, an equal number of judges of the supreme court shall be elected, except in elections to fill vacancies; and whenever the number of such judges shall be increased, the general assembly may authorize such court to organize divisions thereof, not exceeding three, each division to consist of an equal number of judges; for the adjudication of cases, a majority of each division shall constitute a quorum, and such an assignment of the cases to each division may be made as such court may deem expedient, but whenever all the judges of either division hearing a case shall not concur as to the judgment to be rendered therein, or whenever a case shall involve the constitutionality of an act of the general assembly or an act of congress, it shall be reserved to the whole court for adjudication. [As amended October 9, 1883; 80 v. 382.]

SEC. 3. The state shall be divided into nine common pleas districts, of which the county of Hamilton shall constitute one, of compact territory, and bounded by county lines, and each of said districts, consisting of three or more counties, shall be subdivided into three parts of compact territory bounded by county lines, and as nearly equal in population as practicable; in each of which, one judge of the court of common pleas for said district, and residing therein, shall be elected by the electors of said subdivision. Courts of common pleas shall be held by one or more of these judges, in every county in the district, as often as may be provided by law; and more than one court, or sitting thereof, may be held at the same time in each district.

SEC. 4. The jurisdiction of the court of common pleas, and the judges thereof, shall be fixed by law.

SEC. 5. [Repealed October 9, 1883; 80 v. 382.]

SEC. 6. The circuit court shall have like original jurisdiction with the supreme court, and such appellate jurisdiction as may be provided by law. Such courts shall be composed of such numbers of judges as may be provided by law, and shall be held in each county at least once in each year. The number of circuits, and the boundaries thereof, shall be prescribed by law. Such judges shall be elected in each circuit by the electors thereof, and at such time and for such term as may be prescribed by law, and the same number shall be elected in each circuit. Each judge shall be competent to exercise his judicial powers in any circuit. The general assembly may change, from time to time, the number of boundaries of the circuits. [As amended October 9, 1883; 80 v. 382.]

SEC. 7. There shall be established in each county a probate court, which shall be a court of record, open at all times, and holden by one judge, elected by the voters of the county, who shall hold his office for the term of three years and shall receive such compensation, payable out of the county treasury, or by fees, or both, as shall be provided by law.

SEC. 8. The probate court shall have jurisdiction in probate and testamentary matters, the appointment of administrators and guardians, the settlement of the accounts of executors, administrators, and guardians, and such jurisdiction in habeas corpus, the issuing of marriage licenses, and for the sale of land by executors, administrators, and guardians, and such other jurisdiction in any county or counties as may be provided by law.

SEC. 9. A competent number of justices of the peace shall be elected, by the electors, in each township in the several counties. Their term of office shall be three years, and their powers and duties shall be regulated by law.

SEC. 10. All judges, others than those provided for in this constitution, shall be elected by the electors of the judicial district for which they may be created, but not for a longer term of office than five years.

SEC. 11. [Repealed October 9, 1883; 80 v. 382.]

SEC. 12. The judges of the courts of common pleas shall, while in office, reside in the district for which they are elected; and their term of office shall be for five years.

SEC. 13. In case the office of any judge shall become vacant before the expiration of the regular term for which he was elected, the vacancy shall be filled by appointment by the governor, until a successor is elected and qualified; and such successor shall be elected for the unexpired term, at the first annual election that occurs more than thirty days after the vacancy shall have happened.

SEC. 14. The judges of the supreme court, [of the circuit court], and of the court of common pleas, shall, at stated times, receive for their services, such compensation as shall be provided by law, which shall not be diminished, or increased, during their term of office; but they shall receive no fees or perquisites, nor hold any other office of profit or trust under the authority of this state, or the United States. All votes for either of them, for any elective office, except a judicial office, under the authority of this state, given by the general assembly, or the people, shall be void.

SEC. 15. The general assembly may increase, or diminish, the number of the judges of the supreme court, the number of the districts of the court of common pleas, the number of judges in any district, change the districts, or the subdivisions thereof, or establish other courts, whenever two-thirds of the members elected to each house shall concur therein; but no such change, addition or diminution, shall vacate the office of any judge.

SEC. 16. There shall be elected in each county, by the electors thereof, one clerk of the court of common pleas, who shall hold his office for the term of three years, and until his successor shall be elected and qualified. He shall, by virtue of his office, be clerk of all other courts of record held therein; but, the general assembly may provide, by law, for the election of a clerk, with a like term of office, for each or any other of the courts of record, and may authorize the judge of the probate court to perform the duties of clerk for his court, under such regulations as may be directed by law. Clerks of courts shall be removable for such cause and in such manner as shall be prescribed by law.

SEC. 17. Judges may be removed from office, by concurrent resolution of both houses of the general assembly, if two-thirds of the members elected to each house concur therein; but no such removal shall be made, except upon complaint, the substance of which shall be entered on the journal, nor, until the party charged shall have had notice thereof, and an opportunity to be heard.

SEC. 18. The several judges of the supreme court, [of the circuit court], of the common pleas [court], and of such other courts as may be created, shall, respectively, have and exercise such power and jurisdiction, at chambers, or otherwise, as may be directed by law.

SEC. 19. The general assembly may establish courts of conciliation, and prescribe their powers and duties; but such courts shall not render final judgment in any case, except upon submission, by the parties, of the matter in dispute, and their agreement to abide such judgment.

SEC. 20. The style of all process shall be "The State of Ohio;" all prosecutions shall be carried on in the name, and by the authority, of the State of Ohio; and all indictments shall conclude, "against the peace and dignity of the State of Ohio."

SEC. 21. A commission, which shall consist of five members, shall be appointed by the governor, with the advice and consent of the senate, the members of which shall hold office for the term of three years from and after the first day of February, 1876, to dispose of such part of the business then on the dockets of the supreme court as shall, by arrangement between said commission and said court, be transferred to such commission; and said commission shall have like jurisdiction and power in respect to such business as are or may be vested in said court; and the members of said commission shall receive a like compensation for the time being with the judges of the said court. A majority of the members of said commission shall be necessary to form a quorum or pronounce a decision, and its decision shall be certified, entered, and enforced as the judgments of the supreme court, and at the expiration of said commission all business undisposed of shall by it be certified to the supreme court, and disposed of as if said commission had never existed. The clerk and reporter of said court shall be the clerk and reporter of said commission, and the commission shall have such other attendants, not exceeding in number those provided by law for said court, which attendants said commission may appoint and remove at its pleasure. Any vacancy occurring in said commission shall be filled by appointment of the governor, with the advice and consent of the senate, if the senate be in session; and if the senate be not in session, by the governor; but in such last case, such appointment shall expire at the end of the next session of the general assembly. The general assembly may, on application of the supreme court, duly entered on the journal of the court and certified, provide by law, whenever two-thirds of each house shall concur therein, from time to time, for the appointment in like manner of a like commission with like powers, jurisdiction, and duties; provided that the term of any such commission shall not exceed two years, nor shall it be created oftener than once in ten years. [As adopted October 12, 1875; 72 v 269.]

ARTICLE V.

ELECTIVE FRANCHISE.

SECTION 1. Every white male citizen of the United States, of the age of twenty-one years, who shall have been a resident of the state one year next preceding the election, and of the county, township, or ward, in which he resides, such time as may be provided by law, shall have the qualifications of an elector, and be entitled to vote at all elections.

SEC. 2. All elections shall be by ballot.

SEC. 3. Electors during their attendance at elections, and in going to, and returning therefrom, shall be privileged from arrest, in all cases, except treason, felony and breach of the peace.

SEC. 4. The general assembly shall have power to exclude from the privilege of voting, or of being eligible to office, any person convicted of bribery, perjury or other infamous crime.

SEC. 5. No person in the military, naval, or marine service of the United States, shall, by being stationed in any garrison, military, or naval station, within the state, be considered a resident of this state.

SEC. 6. No idiot or insane person shall be entitled to the privileges of an elector.

ARTICLE VI.

EDUCATION.

SEC. 1. The principal of all funds arising from the sale or other disposition of lands or other property granted or entrusted to this state for educational or religious purposes, shall forever be preserved inviolate and undiminished; and the income arising therefrom shall be faithfully applied to the specific objects of the original grants or appropriations.

SEC. 2. The general assembly shall make such provisions, by taxation or otherwise, as, with the income arising from the school trust fund, will secure a thorough and efficient system of common schools throughout the state, but no religious or other sect or sects shall ever have any exclusive right to, or control of, any part of the school funds of this state.

ARTICLE VII.

PUBLIC INSTITUTIONS.

SECTION 1. Institutions for the benefit of the insane, blind and deaf and dumb, shall always be fostered and supported by the state; and be subject to such regulations as may be prescribed by the general assembly.

SEC. 2. The directors of the penitentiary shall be appointed or elected in such manner as the general assembly may direct; and the trustees of the benevolent and other state institutions now elected by the general assembly, and of such other state institutions as may be hereafter created, shall be appointed by the governor, by and with the advice and consent of the senate; and upon all nominations made by the governor, the question shall be taken by yeas and nays, and entered upon the journals of the senate.

SEC. 3. The governor shall have power to fill all vacancies that may occur in the offices aforesaid, until the next session of the general assembly, and until a successor to his appointee shall be confirmed and qualified.

ARTICLE VIII.

PUBLIC DEBT AND PUBLIC WORKS.

SECTION 1. The state may contract debts to supply casual deficits or failure in revenues, or to meet expenses not otherwise provided for; but the aggregate amount of such debts, direct and contingent, whether contracted by virtue of one or more acts of the general assembly, or at different periods of time, shall never exceed seven hundred and fifty thousand dollars; and the money arising from the creation of such debts shall be applied to the purpose for which it was obtained, or to repay the debts so contracted, and to no other purpose whatever.

SEC. 2. In addition to the above limited power, the state may contract debts to repel invasion, suppress insurrection, defend the state in war, or to redeem the present outstanding indebtedness of the state; but the money arising from the contracting of such debts shall be applied to the purpose for which it is raised, or to repay such debts, and to no other purpose whatever; and all debts incurred to redeem the present outstanding indebtedness of the state, shall be so contracted as to be payable by the sinking fund, hereinafter provided for, as the same shall accumulate.

SEC. 3. Except the debts above specified in sections one and two of this article, no debt whatever shall hereafter be created by or on behalf of the state.

SEC. 4. The credit of the state shall not, in any manner be given or loaned to, or in aid of, any individual association or corporation whatever; nor shall the state ever hereafter become a joint owner or stockholder in any company or association in this state, or elsewhere formed, for any purpose whatever.

SEC. 5. The state shall never assume the debts of any county, city, town or township, or of any corporation whatever, unless such debt shall have been created to repel invasion, suppress insurrection, or defend the state in war.

SEC. 6. The general assembly shall never authorize any county, city, town, or township, by vote of its citizens or otherwise, to become a stockholder in any joint stock company, corporation, or association whatever; or to raise money for, or loan its credit to, or in aid of, such company, corporation or association.

SEC. 7. The faith of the state being pledged for the payment of its public debt, in order to provide therefor, there shall be created a sinking fund, which shall be

sufficient to pay the accruing interest on such debt, and annually, to reduce the principal thereof, by a sum not less than one hundred thousand dollars, increased yearly, and each and every year, by compounding, at the rate of six per cent. per annum. The said sinking fund shall consist of the net annual income of the public works and stocks owned by the state, of any other funds or resources that are, or may be, provided by law, and of such further sum, to be raised by taxation, as may be required for the purposes aforesaid.

SEC. 8. The auditor of state, secretary of state, and attorney-general, are hereby created a board of commissioners, to be styled, "The Commissioners of the Sinking Fund."

SEC. 9. The commissioners of the sinking fund shall, immediately preceding each regular session of the general assembly, make an estimate of the probable amount of the fund, provided for in the seventh section of this article, from all sources except from taxation, and report the same, together with all their proceedings relative to said fund and the public debt, to the governor, who shall transmit the same with his regular message to the general assembly; and the general assembly shall make all necessary provision for raising and disbursing said sinking fund, in pursuance of the provisions of this article.

SEC. 10. It shall be the duty of the said commissioners faithfully to apply said fund, together with all moneys that may be, by the general assembly, appropriated to that object, to the payment of the interest, as it becomes due, and the redemption of the principal of the public debt of the state, excepting only the school and trust funds held by the state.

SEC. 11. The said commissioners shall, semi-annually, make a full and detailed report of their proceedings to the governor, who shall immediately cause the same to be published, and shall also communicate the same to the general assembly forthwith, if it be in session, and if not, then at its first session, after such report shall be made.

SEC. 12. So long as this state shall have public works which require superintendence, there shall be a board of public works, to consist of three members, who shall be elected by the people at the first general election after the adoption of this Constitution, one for the term of one year, and one for the term of two years, and one for the term of three years; and one member of said board shall be elected annually thereafter, who shall hold his office for three years.

SEC. 13. The powers and duties of said board of public works, and its several members, and their compensation, shall be such as now are, or may be, prescribed by law.

ARTICLE IX.

MILITARY.

SECTION 1. All white male citizens, residents of this state, being eighteen years of age, and under the age of forty-five years, shall be enrolled in the militia, and perform military duty, in such manner, not incompatible with the constitution and laws of the United States, as may be prescribed by law.

SEC. 2. Majors general, brigadiers general, colonels, lieutenant colonels, majors, captains, and subalterns, shall be elected by the persons subject to military duty, in their respective districts.

SEC. 3. The governor shall appoint the adjutant-general, quartermaster-general, and such other staff officers, as may be provided for by law. Majors general, brigadiers general, colonels, or commandants of regiments, battalions, or squadrons, shall, severally, appoint their staff, and captains shall appoint their non-commissioned officers and musicians.

SEC. 4. The governor shall commission all officers of the line and staff, ranking as such; and shall have power to call forth the militia, to execute the laws of the state, to suppress insurrection, and repel invasion.

SEC. 5. The general assembly shall provide, by law, for the protection and safe keeping of the public arms.

ARTICLE X. COUNTY AND TOWNSHIP ORGANIZATIONS.

SECTION 1. The general assembly shall provide, by law, for the election of such county and township officers as may be necessary.

SEC. 2. County officers shall be elected on the first Tuesday after the first Monday in November, by the electors in each county, in such manner and for such term, not exceeding three years, as may be provided by law. [As amended October 13, 1885; 82 v. 446.]

SEC. 3. No person shall be eligible to the office of sheriff, or county treasurer, for more than four years, in any period of six years.

SEC. 4. Township officers shall be elected by the electors of each township at such time, in such manner, and for such term, not exceeding three years, as may be provided by law; but shall hold their offices until their successors are elected and qualified. [As amended October 13, 1885; 82 v. 449.]

SEC. 5. No money shall be drawn from any county or township treasury, except by authority of law.

SEC. 6. Justices of the peace, and county and township officers may be removed, in such manner and for such cause, as shall be prescribed by law.

SEC. 7. The commissioners of counties, the trustees of townships, and similar boards, shall have such power of local taxation for police purposes, as may be prescribed by law.

ARTICLE XI.

APPORTIONMENT.

SECTION 1. The apportionment of this state for members of the general assembly shall be made every ten years, after the year one thousand eight hundred and fifty-one, in the following manner: The whole population of the state, as ascertained by the federal census, or in such other mode as the general assembly may direct, shall be divided by the number "one hundred," and the quotient shall be the ratio of representation in the house of representatives, for ten years next succeeding such apportionment.

SEC. 2. Every county having a population equal to one-half of said ratio, shall be entitled to one representative; every county, containing said ratio, and three-fourths over, shall be entitled to two representatives; ever county containing three times said ratio, shall be entitled to three representatives, and so on, requiring after the first two, an entire ratio for each additional representative.

SEC. 3. When any county shall have a fraction above the ratio, so large, that being multiplied by five, the result will be equal to one or more ratios, additional representatives shall be apportioned for such ratios, among the several sessions of the decennial period, in the following manner: If there be only one ratio, a representative shall be allotted to the fifth session of the decennial period; if there are two ratios, a representative shall be allotted to the fourth and third sessions, respectively; if three, to the third, second and first sessions, respectively; if four, to the fourth, third, second and first sessions, respectively.

SEC. 4. Any county, forming with another county or counties, a representative district, during one decennial period, if it have acquired sufficient population at the next decennial period, shall be entitled to a separate representation, if there shall be left, in the district from which it shall have been separated, a population sufficient for a representative; but no such change shall be made, except at the regular decennial period for the apportionment of representatives.

SEC. 5. If, in fixing any subsequent ratio, a county, previously entitled to a separate representation, shall have less than the number required by the new ratio

for a representative, such county shall be attached to the county adjoining it, having the least number of inhabitants; and the representation of the district, so formed, shall be determined as herein provided.

SEC. 6. The ratio for a senator shall forever, hereafter, be ascertained, by dividing the whole population of the state by the number thirty-five

SEC. 7. The state is hereby divided into thirty-three senatorial districts, as follows: The county of Hamilton shall constitute the first senatorial district; the counties of Butler and Warren, the second; Montgomery and Preble, the third; Clermont and Brown, the fourth; Greene, Clinton and Fayette, the fifth; Ross and Highland, the sixth; Adam, Pike, Scioto and Jackson, the seventh; Lawrence, Gallia, Meigs and Vinton, the eighth; Athens, Hocking and Fairfield, the ninth; Franklin and Pickaway, the tenth; Clark, Champaign and Madison, the eleventh; Miami, Darke and Shelby, the twelfth; Logan, Union, Marion and Hardin, the thirteenth; Washington and Morgan, the fourteenth; Muskingum and Perry, the fifteenth; Delaware and Licking, the sixteenth; Knox and Morrow, the seventeenth; Coshocton and Tuscarawas, the eighteenth; Guernsey and Monroe, the nineteenth; Belmont and Harrison, the twentieth; Carroll and Stark, the twenty-first; Jefferson and Columbiana, twenty-second; Trumbull and Mahoning, the twenty-third; Ashtabula, Lake and Geauga, the twenty-fourth; Cuyahoga, the twenty-fifth; Portage and Summit, the twenty-sixth; Medina and Lorain, the twenty-seventh; Wayne and Holmes, the twenty-eighth; Ashland and Richland, the twenty-ninth; Huron, Erie, Sandusky and Ottawa, the thirtieth; Seneca, Crawford and Wyandot, the thirty-first; Mercer, Auglaize, Allen, Van Wert, Paulding, Defiance and Williams, the thirty-second; and Hancock, Wood, Lucas, Fulton, Henry and Putnam, the thirty-third. For the first decennial period, after the adoption of this constitution, each of said districts shall be entitled to one senator, except the first district, which shall be entitled to three senators.

SEC. 8. The same rules shall be applied in apportioning the fractions of senatorial districts, and in annexing districts, which may hereafter have less than three-fourths of a senatorial ratio, as are applied to representative districts.

SEC. 9. Any county forming part of a senatorial district, having acquired a population equal to a full senatorial ratio, shall be made a separate senatorial district, at any regular decennial apportionment, if a full senatorial ratio shall be left in the district from which it shall be taken.

SEC. 10. For the first ten years after the year one thousand eight hundred and fifty-one, the apportionment of representatives shall be as provided in the schedule, and no change shall ever be made in the principles of representation, as herein established, or in the senatorial districts, except as above provided. All territory belonging to a county at the time of any apportionment, shall, as to the right of representation and suffrage, remain an integral part thereof during the decennial period.

SEC. 11. The governor, auditor and secretary of state, or any two of them, shall, at least six months prior to the October election, in the year one thousand eight hundred and sixty-one, and at each decennial period thereafter, ascertain and determine the ratio of representation, according to the decennial census, the number of representatives and senators each county or district shall be entitled to elect, and for what years, within the next ensuing ten years, and the governor shall cause the same to be published, in such manner as shall be directed by law.

JUDICIAL APPORTIONMENT.

SEC. 12. For judicial purposes, the state shall be apportioned as follows:

The county of Hamilton shall constitute the first district, which shall not be subdivided; and the judges therein may hold separate courts or separate sittings of the same court at the same time.

The counties of Butler, Preble and Darke shall constitute the first subdivision; Montgomery, Miami and Champaign the second; and Warren, Clinton, Greene and Clark, the third subdivision of the second district; and, together, shall form such district.

The counties of Shelby, Auglaize, Allen, Hardin, Logan, Union and Marion, shall constitute the first subdivision; Mercer, Van Wert, Putnum, Paulding, Defiance, Williams, Henry and Fulton the second; and Wood, Seneca, Hancock, Wyandot and Crawford, the third subdivision of the third district; and, together, shall form such district.

The counties of Lucas, Ottawa, Sandusky, Erie and Huron shall constitute the first subdivision; Lorain, Medina and Summit, the second; and the county of Cuyahoga the third subdivision of the fourth district; and, together, shall form such district.

The counties of Clermont, Brown and Adams shall constitute the first subdivision; Highland, Ross and Fayette, the second; and Pickaway, Franklin and Madison, the third subdivision of the fifth district; and, together, shall form such district.

The counties of Licking, Knox and Delaware shall constitute the first subdivision; Morrow, Richland, and Ashland, the second; and Wayne, Holmes and Coshocton, the third subdivision of the sixth district; and, together, shall form such district.

The counties of Fairfield, Perry and Hocking shall constitute the first subdivision; Jackson, Vinton, Pike, Scioto and Lawrence the second; and Gallia, Meigs, Athens and Washington, the third subdivision of the seventh district; and, together, shall form such district.

The counties of Muskingum and Morgan shall constitute the first subdivision; Guernsey, Belmont and Monroe, the second; and Jefferson, Harrison and Tuscarawas, the third subdivision of the eighth district; and, together, shall form such district.

The counties of Stark, Carroll and Columbiana shall constitute the first subdivision; Trumbull, Portage and Mahoning, the second; and Geauga, Lake and Ashtabula, the third subdivision of the ninth district; and, together, shall form such district.

SEC. 13. The general assembly shall attach any new counties that may hereafter be erected to such districts or subdivisions thereof as shall be the most convenient.

ARTICLE XII.

FINANCE AND TAXATION.

SECTION 1. The levying of taxes by the poll is grievous and oppressive; therefore, the general assembly shall never levy a poll tax for county or state purposes.

SEC. 2. Laws shall be passed taxing by a uniform rule all moneys, credits, investments in bonds, stocks, joint stock companies, or otherwise; and also all real and personal property according to its true value in money; but burying grounds, public school houses, houses used exclusively for public worship, institutions of purely public charity, public property used exclusively for any public purpose, and personal property to an amount not exceeding in value two hundred dollars, for each individual may, by general laws, be exempted from taxation; but all such laws shall be subjected to alterations and repeal; and the value of all property so exempted, shall, from time to time, be ascertained and published, as may be directed by law.

SEC. 3. The general assembly shall provide by law for taxing the notes and bills discounted or purchased-moneys loaned, and all other property, effects or dues, of every description, without deduction, of all banks now existing, or hereafter

created, and of all bankers, so that all property, employed in banking shall always bear a burden of taxation equal to that imposed on the property of individuals.

SEC. 4. The general assembly shall provide for raising revenue sufficient to defray the expenses of the state for each year, and also a sufficient sum to pay the interest on the state debt.

SEC. 5. No tax shall be levied except in pursuance of law; and every law imposing a tax shall state distinctly the object of the same, to which only it shall be applied.

SEC. 6. The state shall never contract any debt for purposes of internal improvement.

ARTICLE XIII.

CORPORATIONS.

SECTION 1. The general assembly shall pass no special act conferring corporate powers.

SEC. 2. Corporations may be formed under general laws; but all such laws may, from time to time, be altered or repealed.

SEC. 3. Dues from corporations shall be secured, by such individual liability of the stockholders, and other means, as may be prescribed by law; but in all cases each stockholder shall be liable, over and above the stock by him or her owned, and any amount unpaid thereon, to a further sum at least equal in amount to such stock.

SEC. 4. The property of corporations now existing or hereafter created shall forever be subject to taxation, the same as the property of individuals.

SEC. 5. No right of way shall be appropriated to the use of any corporation until full compensation therefor be first made in money, or first secured by a deposit of money to the owner, irrespective of any benefit from any improvement proposed by such corporation, which compensation shall be ascertained by a jury of twelve men, in a court of record as shall be prescribed by law.

SEC. 6. The general assembly shall provide for the organization of cities, and incorporated villages, by general laws, and restrict their power of taxation, assessment, borrowing money, contracting debts and loaning their credit, so as to prevent the abuse of such power.

SEC. 7. No act of the general assembly, authorizing associations with banking powers, shall take effect until it shall be submitted to the people, at the general election next succeeding the passage thereof, and be approved by a majority of all the electors voting at such election.

ARTICLE XIV.

JURISPRUDENCE.

SECTION 1. The general assembly, at its first session after the adoption of this constitution, shall provide for the appointment of three commissioners, and prescribe their tenure of office, compensation, and the mode of filling vacancies in said commission.

SEC. 2. The said commissioners shall revise, reform, simplify, and abridge the practice, pleadings, forms, and proceedings of the courts of records of this state; and, as far as practicable and expedient, shall provide for the abolition of the distinct forms of action at law, now in use, and for the administration of justice by a uniform mode of proceeding without reference to any distinction between law and equity.

SEC. 3. The proceedings of the commissioners shall, from time to time, be reported to the general assembly, and be subject to the action of that body.

ARTICLE XV.

MISCELLANEOUS.

SECTION 1. Columbus shall be the seat of government until otherwise directed by law.

SEC. 2. The printing of the laws, journals, bills, legislative documents, and papers for each branch of the general assembly, with the printing required for the executive and other departments of state, shall be let, on contract to the lowest bidder, by such executive officers, and in such manner, as shall be prescribed by law.

SEC. 3. An accurate and detailed statement of the receipts and expenditures of the public money, the several amounts paid, to whom, and on what account, shall, from time to time, be published, as shall be prescribed by law.

SEC. 4. No person shall be elected or appointed to any office in this state unless he possesses the qualification of an elector.

SEC. 5. No person who shall hereafter fight a duel, assist in the same as second, or send, accept, or knowingly carry, a challenge therefor, shall hold any office in this state.

SEC. 6. Lotteries, and the sale of lottery tickets, for any purpose whatever, shall forever be prohibited in this state.

SEC. 7. Every person chosen or appointed to any office under this state, before entering upon the discharge of its duties, shall take an oath or affirmation to support the Constitution of the United States, and of this state, and also an oath of office.

SEC. 8. There may be established, in the secretary of state's office, a bureau of statistics, under such regulations as may be prescribed by law.

SEC. 9. No license to traffic in intoxicating liquors shall hereafter be granted in this state; but the general assembly may, by law, provide against evils resulting therefrom.

ARTICLE XVI.

AMENDMENTS.

SECTION. 1. Either branch of the general assembly may propose amendments to this constitution; and, if the same shall be agreed to by three-fifths of the members elected to each house, such proposed amendments shall be entered on the journals, with the yeas and nays, and shall be published in at least one newspaper in each county of the state, where a newspaper is published, for six months preceding the next election for senators and representatives, at which time the same shall be submitted to the electors for their approval or rejection; and if a majority of the electors voting at such election shall adopt such amendments, the same shall become a part of the constitution. When more than one amendment shall be submitted at the same time, they shall be so submitted as to enable the electors to vote on each amendment separately.

SEC. 2. Whenever two-thirds of the members elected to each branch of the general assembly shall think it necessary to call a convention to revise, amend, or change this constitution, they shall recommend to the electors to vote, at the next election for members to the general assembly, for or against a convention; and if a majority of all the electors voting at said election, shall have voted for a convention, the general assembly shall, at their next session, provide, by law, for calling the same. The convention shall consist of as many members as the house of representatives, who shall be chosen in the same manner, and shall meet within three months after their election, for the purpose aforesaid.

SEC. 3. At the general election to be held in the year one thousand eight hundred and seventy-one, and in each twentieth year thereafter, the question: "Shall there be a convention to revise, alter or amend the Constitution," shall be submitted to the electors of the state; and in case a majority of all the electors

voting at such election shall decide in favor of a convention, the general assembly at its next session, shall provide, by law, for the election of delegates, and the assembling of such convention, as is provided in the preceding section; but no amendment of this constitution, agreed upon by any convention assembled in pursuance of this article, shall take effect until the same shall have been submitted to the electors of the state, and adopted by a majority of those voting thereon.

SCHEDULE.

SECTION 1. All laws of this state, in force on the first day of September, one thousand eight hundred and fifty-one, not inconsistent with this constitution, shall continue in force until amended or repealed.

SEC. 2. The first election for members of the general assembly, under this constitution, shall be held on the second Tuesday of October, one thousand eight hundred and fifty-one.

SEC. 3. The first election for governor, lieutenant-governor, auditor, treasurer, and secretary of state, and attorney general, shall be held on the second Tuesday of October, one thousand eight hundred and fifty-one. The persons holding said offices on the first day of September, one thousand eight hundred and fifty-one, shall continue therein, until the second Monday of January, one thousand eight hundred and fifty-two.

SEC. 4. The first election for judges for the supreme court, courts of common pleas, and probate courts, and clerks of the courts of common pleas, shall be held on the second Tuesday of October, one thousand eight hundred and fifty-one, and the official term of said judges and clerks, so elected, shall commence on the second Monday of February, one thousand eight hundred and fifty-two. Judges and clerks of the courts of common pleas and supreme court, in office on the first day of September, one thousand eight hundred and fifty-one, shall continue in office with their present powers and duties, until the second Monday of February, one thousand eight hundred and fifty-two. No suits or proceeding, pending in any of the courts of this state shall be affected by the adoption of this constitution.

SEC. 6. The superior and commercial courts of Cincinnati, and the superior court of Cleveland, shall remain, until otherwise provided by law, with their present powers and jurisdiction; and the judges and clerks of said courts, in office on the first day of September, one thousand eight hundred and fifty-one shall continue in office until the expiration of their terms of office, respectively, or, until otherwise provided by law, but neither of said courts shall continue after the second Monday of February, one thousand eight hundred and fifty-three; and no suits shall be commenced in said two first mentioned courts, after the second Monday in February, one thousand eight hundred and fifty-two; nor in said last mentioned court, after the second Monday in August, one thousand eight hundred and fifty-two; and all business in either of said courts, not disposed of within the time limited for their continuance as aforesaid, shall be transferred to the court of common pleas.

SEC. 7. All county and township officers and justices of the peace, in office on the first day of September, one thousand eight hundred and fifty-one, shall continue in office until their terms expire, respectively.

SEC. 8. Vacancies in office, occurring after the first day of September, one thousand eight hundred and fifty-one, shall be filled, as is now prescribed by law, and until officers are elected or appointed, and qualified under this constitution.

SEC. 9. This constitution shall take effect on the first day of September, one thousand eight hundred and fifty-one.

SEC. 10. All officers shall continue in office, until their successors shall be chosen and qualified.

SEC. 11. Suits pending in the supreme court in bank, shall be transferred to the supreme court provided for in this constitution, and be proceeded in according to law.

SEC. 12. The district courts shall, in their respective counties, be the successors of the present supreme court; and all suits, prosecution, judgments, records and proceedings, pending and remaining in said supreme court, in the several counties of any district shall be transferred to the respective district courts of such counties, and be proceeded in, as though no change had been made in said supreme court.

SEC. 13. The said courts of common pleas, shall be the successors of the present courts of common pleas in the several counties, except as to probate jurisdiction and all suits, prosecutions, proceedings, records and judgments, pending or being in said last mentioned courts, except as aforesaid shall be transferred to the courts of common pleas created by this constitution, and proceeded in, as though the same had been therein instituted.

SEC. 14. The probate courts provided for in this constitution, as to all matters within the jurisdiction conferred upon said courts, shall be the successors, in the several counties, of the present courts of common pleas; and the records, files and papers, business and proceedings, appertaining to said jurisdiction, shall be transferred to said courts of probate, and be there proceeded in according to law.

SEC. 15 Until otherwise provided by law, elections for judges and clerks shall be held, and the poll-books returned as is provided for governor, and the abstract therefrom, certified to the secretary of state, shall be by him opened in the presence of the governor, who shall declare the result, and issue commissions to the persons elected.

SEC. 16. Where two or more counties are joined in a senatorial, representative, or judicial district, the returns of election shall be sent to the county having the largest population.

SEC. 17. The foregoing constitution shall be submitted to the electors of the state, at an election to be held on the third Tuesday of June, one thousand eight hundred and fifty-one, in the several election districts in this state. The ballots at such election shall be written or printed as follows: Those in favor of the constitution, "New Constitution, Yes;" those against the constitution "New constitution, No." The polls at said election shall be opened between the hours of eight and ten o'clock A. M., and close at six o'clock P. M., and the said election shall be conducted, and the returns thereof made and certified to the secretary of state, as provided by law for annual elections for state and county officers. Within twenty days after such election the secretary of state shall open the returns thereof in the presence of the governor and, if it shall appear that a majority of all the votes cast at such election are in favor of the constitution, the governor shall issue his proclamation, stating that fact and said constitution shall be the Constitution of the State of Ohio, and not otherwise.

The result of this election, excluding the returns of the two counties, Defiance and Auglaize, which were not received in the twenty days specified, was as follows:

"New Constitution Yes.....	125,564
"New Constitution, No".....	109,276
Majority for new Constitution.....	16,288

SEC. 18. At the time when the votes of the electors shall be taken for the adoption or rejection of this constitution, the additional section in the words following, to-wit: "No license to traffic in intoxicating liquors shall hereafter be granted in this state; but the general assembly may, by law, provide against evils resulting therefrom," shall be separately submitted to the electors for adoption or rejection, in form following, to-wit: A separate ballot may be given by every elector and deposited in a separate box. Upon the ballots given for said separate amendment shall be written or printed, or partly written and partly printed, the words "license to sell intoxicating liquors, Yes;" and upon the ballots given against said amendment, in like manner, the words: "License to sell intoxicating liquors, No." If, at the said elec-

tion, a majority of all votes given for and against said amendment shall contain the words: "License to sell intoxicating liquors, No," then the said amendment shall be a separate section of article fifteen for the constitution.

This election resulted:

"License to sell intoxicating liquors, No "	113,237
"License to sell intoxicating liquors, Yes "	104,255
Majority against license.....	8,982

SEC. 19. The apportionment for the house of representatives during the first decennial period under this constitution, shall be as follows:

The counties of Adams, Allen, Athens, Auglaize, Carroll, Champaign, Clark, Clinton, Crawford, Darke, Delaware, Erie, Fayette, Gallia, Geauga, Greene, Hancock, Harrison, Hocking, Holmes, Lake, Lawrence, Logan, Madison, Marion, Meigs, Morrow, Perry, Pickaway, Pike, Preble, Sandusky, Scioto, Shelby and Union, shall, severally, be entitled to one representative in each session of the decennial period.

The counties of Franklin, Licking, Montgomery and Stark shall each be entitled to two representatives in each session of the decennial period.

The counties of Ashland, Coshocton, Highland, Huron, Lorain, Mahoning, Medina, Miami, Portage, Seneca, Summit and Warren, shall, severally be entitled to one representative in each session and one additional representative in the fifth session of the decennial period.

The counties of Ashtabula, Brown, Butler, Clermont, Fairfield, Guernsey, Jefferson, Knox, Monroe, Morgan, Richland, Trumbull, Tuscarawas, and Washington, shall, severally, be entitled to one representative in each session, and two additional representatives, one in the third and one in the fourth session of the decennial period.

The counties of Belmont, Columbiana, Ross, and Wayne, shall, severally, be entitled to one representative in each session, and three additional representatives, one in the first, one in the second, and one in the third session of the decennial period.

The county of Muskingum shall be entitled to two representatives in each session, and one additional representative in the fifth session of the decennial period.

The county of Cuyahoga shall be entitled to two representatives in each session, and two additional representatives, one in the third and one in the fourth session of the decennial period.

The county of Hamilton shall be entitled to seven representatives, in each session, and four additional representatives, one in the first, one in the second, one in the third, and one in the fourth session of the decennial period.

The following counties, until they shall have acquired a sufficient population to entitle them to elect separately, under the fourth section of the eleventh article, shall form districts in manner following, to-wit: The counties of Jackson and Vinton, one district; the counties of Lucas and Fulton, one district; the counties of Wyandot and Hardin, one district; the counties of Mercer and Van Wert, one district; the counties of Paulding, Defiance, and Williams, one district; the counties of Putnam and Henry, one district; and the counties of Wood and Ottawa, one district; each of which district shall be entitled to one representative in every session of the decennial period.

Done in convention, at Cincinnati, the tenth day of March, in the year of our Lord, one thousand eight hundred and fifty-one, and of the independence of the United States the seventy-fifth.

WILLIAM MEDILL,
President.

Attest:

WM. H. GILL, *Secretary.*
